DECLARATION OF AUTHENTICITY	iv
ACKNOWLEDGMENT	v
TABLE OF CONTENT	vii
LIST OF TABLES	x
LIST OF FIGURES	xi
LIST OF APPENDICES	xiii
ABSTRACT	xvi
INTISARI	xvii
CHAPTER I.....	1
1.1. Research Background	1
1.2. Research Questions.....	5
1.3. Research Objectives.....	5
1.3.1. General Objectives	5
1.3.2. Specific Objectives.....	6
1.4. Research Benefit	6
CHAPTER II	7
2.1. Olive tree	7
2.2. Olive production in Japan	9
2.3. Olive fruit.....	10
2.4. Processing of olive oil from olive fruit.....	12
2.5. Olive oil	13
2.6. Phenolic compounds in olive.....	15
2.6.1. Phenolic compounds in olive fruit and their changing during maturation	15
2.6.2. Phenolic compounds in olive oil and their content in different extra virgin olive oil (EVOOs).....	21
2.7. Antioxidant activity in olive fruit and oil	30
2.8. Extraction of phenolic compounds	33
2.8.1. Extraction of phenolic compound from olive fruit.....	33
2.8.2. Extraction of phenolic compound from olive oil	36
2.9. Analytical technique for separating olive phenolic compounds.....	39
2.9.1. High Performance Liquid Chromatography (HPLC).....	39
2.10. Hypothesis	43
CHAPTER III	44
3.1. Materials	44
3.1.1. Samples	44

3.1.2. Chemicals	44
3.2. Instruments	45
3.3. Time and place of experiment	46
3.4. Experimental stages	46
3.5. Methods	47
3.5.1. HPLC-PDA Method Establishment	47
3.5.2. Physical characteristics of olive fruits.....	48
3.5.3. Extraction of phenolic compounds.....	48
3.5.4. HPLC-PDA analysis	50
3.5.5. Folin-Ciocalteu's total phenolic content analysis	51
3.5.6. DPPH radical scavenging activity test	51
3.5.7. Statistical analysis	52
3.6. Experimental Design	52
CHAPTER IV	53
4.1. Influence of mobile phase composition on separation of olive phenolic compounds using HPLC-PDA.....	53
4.2. Phenolic compounds in Japanese-grown olive fruit during maturation	58
4.2.1. Physical properties of olive fruit	58
4.2.2. Yield of olive fruit's phenolic compounds extraction.....	61
4.2.3. Identification of phenolic compounds in the Japanese-grown olive fruit using HPLC-PDA	61
4.2.4. Quantification of several individual phenolic compounds in the Japanese-grown olive fruit using HPLC-PDA.....	69
4.2.5. Total phenolic content.....	75
4.2.6. Antioxidant activity.....	77
4.2.7. PCA analysis on the phenol content and antioxidant activity.....	79
4.2.8. Discussion	83
4.3. Evaluation of olive oils marketed in Japan.....	87
4.3.1. Yield of olive oil's phenolic compounds extraction	87
4.3.2. Identification of phenolic compound in olive oils marketed in Japan using HPLC-PDA	87
4.3.3. Quantification of several individual phenolic compound in five commercial extra virgin olive oils using HPLC-PDA	94
4.3.4. Total phenolic content.....	96
4.3.5. Antioxidant activity.....	97
4.3.6. PCA analysis on the phenol content and antioxidant activity.....	100
4.3.7. Discussion	104
CHAPTER V	110
5.1. Conclusion	110
5.2. Suggestion	111

5.3. Recommendation for future work.....	112
REFERENCES	113
APPENDICES	120
