LIST OF FIGURES	vii
LIST OF TABLES	ix
ABSTRACT	x
CHAPTER I INTRODUCTION	1
1.1. Background	1
1.2. Research Question.....	3
1.3. Research Purpose	4
1.4. Scope of Problem	4
1.5. ResearchBenefit	5
1.6. Research Originality.....	5
CHAPTER II LITERATURE REVIEW.....	8
2.1. Information System.....	8
2.2. Intermodal Transportation.....	9
2.3. Public Transportation Problems.....	10
2.4. Transport Development Concept to Improve Accessibility.....	11
2.4.1. Integrated Airport Terminal	11
2.4.2. Railway Transportation System	12
2.4.3. Bus Rapid Transit (BRT)	13

2.4.4. Seaport Strategic Development.....	14
2.5. The Application of Intelligent Transport System.....	16
2.5.1. Automatic Dependent Surveillance-Broadcast (ADS-B).....	17
2.5.2. Vehicle Tracking System	19
2.5.3. Automatic Identification System (AIS)	21
CHAPTER III THEORETICAL BASE.....	23
3.1. Accessibility.....	23
3.2. Model of Gravity.....	24
3.3. Breaking Point Theory	25
3.4. Connectivity Index	25
3.5. Centrality Index.....	26
CHAPTER IV RESEARCH METHOD	28
4.1. Research Location	28
4.1.1. Geography, Administration, and Population.....	28
4.1.2. Land Use and Regional Strategic Development	30
4.1.3. Transport Network and Infrastructure.....	35
4.1.4. Tourism Destination Development	38
4.2. A Case Study.....	42
4.3. Information System Planning.....	46
4.4. Research Flowchart.....	47
CHAPTER V THE INTEGRATED TRANSPORT INFORMATION SYSTEM ..	28
5.1. Technology Implementation	28
5.1.1. Antenna Design.....	28
5.1.2. Open Source Software and Application Use.....	51
5.1.3. Supported Devices Use	52

5.2. Information System Design.....	53
CHAPTER VI TRANSPORT AND TOURISM STRATEGIC DEVELOPMENT	49
6.1. Proposed Public Transport Planning.....	49
6.1.1. Route Accessibility Analysis	49
6.1.2. Regional Structure Analysis.....	57
6.2. Target of Implementation.....	60
6.2.1. General Costumer Type	60
6.2.1. Related Stakeholders	61
6.3. Strategic Development Program	62
CHAPTER VII CONCLUSIONS	56
7.1. Conclusions	56
7.2. Recommendations	64
