

## Table of contents

GADJAH MADA

List of abbreviations.....	.....
Introduction.....	1
Material and Methods.....	3
1. Ethics statement.....	3
2. Samples collection.....	3
3. Viral nucleic acid extraction and E gene amplification.....	4
4. Sequencing.....	4
5. Phylogenetic analysis.....	5
Results.....	5
Discussion.....	6
1. Phylogenetic trees analysis.....	6
1.1. Tree construction.....	6
1.2. Strains relationships.....	7
2. Positioning of our DENV strains in Dengue context.....	8
3. Working with viruses.....	10
4. Further work.....	11
Conclusion.....	12
References.....	.....
Appendices.....	.....
Appendix 1: Detailed Protocols.....	.....
Appendix 2: Table of primers set.....	.....
