

INTISARI

Kepolisian Negara Republik Indonesia merupakan garda terdepan dalam perlawanan terhadap penyalahgunaan narkotika di Indonesia. Sayangnya, studi tentang sikap anggota Polri terhadap penyalahgunaan narkotika di Indonesia masih sangat langka. Penelitian ini bertujuan untuk mengkaji secara empirik pengaruh *anchor virtues*, sebagai faktor motivasional, pada sikap Polri terhadap penyalahgunaan narkotika.

Sebanyak 114 polisi mengisi skala *anchor virtues* dan skala sikap. Data kemudian dianalisis dengan teknik regresi. Hasil menunjukkan bahwa Polri memiliki sikap sesuai sebagaimana dimandatkan hukum terhadap penyalahgunaan narkotika. *Anchor virtues* terbukti berperan secara negatif dan signifikan pada sikap Polri terhadap penyalahgunaan narkotika ($R^2 = 0,119$; $p = 0,000$).

Kata Kunci : *Anchor virtues*, Penyalahgunaan Narkotika, Sikap

ABSTRACT

Indonesian National Police is the front liner in defense of war against drug abuse in Indonesia. Despite the importance of their role, studies regarding police attitudes toward drug abuse itself are scarcely to be seen. This study aims to give empirical examination about the role of anchor virtues, as a motivational factor, on police officers attitudes toward drug abuse.

Anchor virtues scale and attitude scale was administered to 114 police officers. Linear regression then performed to analyze the data. Results show that subjects attitudes toward drug abuse is consistent with drug enforcement as mandated by law and regulation. Anchor virtues proved to have significant and negative role to the police attitudes toward drug abuse ($R^2 = 0,119$; $p = 0,000$).
