INTISARI

Penelitian ini bertujuan: (a) mengkaji tingkat kesesuaian fasilitas wisata alam Tahun 2018 di Zona Pemanfaatan Taman Nasional Gunung Merapi Resort Pakem-Turi ditinjau dari peraturan dan standar terkait tentang fasilitas wisata, (b) mengkaji tingkat kesesuaian kebutuhan bangunan fasilitas wisata alam dengan jumlah pengunjung Tahun 2018 di Zona Pemanfaatan TNGM Resort Pakem-Turi serta kesesuaian kebutuhan bangunan fasilitas wisata di masa mendatang (Tahun 2024).

Metode pengumpulan data menggunakan metode observasi, studi dokumentasi, wawancara, dan pengukuran. Data dianalisis secara deskriptif, dan prakiraan jumlah pengunjung tahun 2019-2024 dianalisis menggunakan *Software Minitab 17*.

Hasil penelitian menunjukkan secara keseluruhan pembangunan fasilitas wisata alam sudah sesuai dengan peraturan dari Direktur Jendral Perlindungan Hutan dan Knservasi Alam. Sementara untuk menuju standar internasional, masih ditemukan pembangunan fasilitas wisata alam yang belum sesuai dengan Peraturan Menteri Pariwisata No. 3 Tahun 2018, Data Arsitek Jilid 1, serta *Metric Handbook Planning and Design Data Second Edition*. Hasil perhitungan kebutuhan bangunan fasilitas wisata tahun 2018 menunjukkan hanya toilet di Obyek Wisata Alam Tlogo Nirmolo yang belum terpenuhi. Kebutuhan bangunan fasilitas wisata yang dapat ditambahkan Tahun 2024 berupa aula, gudang alat, ruang *service* alat untuk menunjang kegiatan *outbound*.

ABSTRACT

This study aims: (a) to assess the suitability of the natural tourism facilities in 2018 in the Pakem-Turi Gunung Merapi National Park Utilization Zone in terms of relevant regulations and standards on tourist facilities, (b) to assess the suitability of building needs of tourist facilities with the number of visitors in 2018 in the Pakem-Turi Gunung Merapi National Park Utilization Zone and the suitability of building needs of tourist facilities in the future (Year 2024).

The data was collected by observation, documentation studies, interviews, and measurements. Data were analyzed descriptively, and the estimated number of visitors in 2019-2024 was analyzed using Software Minitab 17.

The results showed that overall the development of natural tourism facilities was in accordance with the regulations of the Director General of Forest Protection and Nature Conservation. While to get to international standards, the development of natural tourism facilities is still found which has not been in accordance with the Minister of Tourism Regulation No. 3 of 2018, Volume 1 Architect Data, Metric Handbook Planning and Design Data Second Edition. The results of calculating the building needs of tourist facilities in 2018 show that only toilets in the Tlogo Nirmolo Nature Tourism has not been fulfilled. The building need of tourist facilities that can be add in 2024 in the form of halls, tool warehouses, service room tool to support outbound activities.

Keywords: tourism facilities, suitability, needs, Utilization Zone, Gunung Merapi National Park, Tlogo Muncar Nature Object, Tlogo Nirmolo Nature Object
