

## List of Content

Cover .....	i
Endorsement .....	ii
Statement Sheet .....	iii
Acknowledgement .....	iv
Preface .....	vi
List of Content .....	vii
List of Tables .....	xi
List of Figures .....	xiv
List of Annexes .....	xv
List of Abbreviations .....	xvi
Abstract .....	xvii
Intisari .....	xviii
CHAPTER I INTRODUCTION .....	1
1.1 Background .....	1
1.2 Research Objective .....	4
1.3 Research Benefit .....	4
CHAPTER II LITERATURE REVIEW .....	5
2.1 Balsa ( <i>Ochroma pyramidale</i> ) .....	5
2.1.1 Systematic Taxonomy .....	6
2.1.2 Habitat and Distribution .....	6
2.1.3 Botanical View .....	7
2.1.4 Features and Uses .....	7
2.2 Wood Physical Properties .....	8
2.2.1 Moisture Content .....	9
2.2.2 Specific Gravity .....	10
2.2.3 Dimensional Change .....	12
2.3 Mechanical Properties .....	14
2.3.1 Static Bending Strength .....	15
2.3.2 Compressive Strength Parallel to Grain .....	16
2.3.2 Compressive Strength Perpendicular to Grain .....	16
2.3.3 Shear Strength Parallel to Grain .....	17
2.3.4 Wood Hardness .....	18

CHAPTER III HYPOTHESIS AND RESEARCH DESIGN .....	19
3.1 Hypothesis .....	19
3.2 Research Design .....	19
CHAPTER IV METHODOLOGY .....	24
4.1 Material .....	24
4.2 Equipment .....	24
4.3 Time and Venue .....	25
4.4 Sample Preparation .....	25
4.4.1 Physical Properties .....	27
4.4.2 Mechanical Properties .....	28
4.5 Measurement and Calculation .....	29
4.5.1 Physical Properties .....	29
4.5.1.1 Moisture Content .....	29
4.5.1.2 Specific Gravity .....	29
4.5.1.3 Dimensional Changes (Shrink & Swell) .....	30
4.5.2 Mechanical Property .....	31
4.5.2.1 Static Bending Strength .....	31
4.5.2.2 Compressive Strength Parallel to Grain .....	32
4.5.2.3 Compressive Strength Perpendicular to Grain .....	32
4.5.2.4 Shear Strength Parallel to Grain .....	33
4.5.2.5 Hardness .....	33
CHAPTER V RESULT AND ANALYSIS .....	34
5.1 Physical Properties .....	34
5.1.1 Moisture Content .....	34
5.1.1.1 Green Moisture Content .....	34
5.1.1.2 Air-dried Moisture Content .....	36
5.1.2 Specific Gravity .....	37
5.1.2.1 Green Specific Gravity .....	37
5.1.2.2 Air-dried Specific Gravity .....	38
5.1.2.3 Oven-dried Specific Gravity .....	40
5.1.3 Dimensional Change .....	42
5.1.3.1 Shrinkage from Green to Air –dried .....	42
5.1.3.1.1 Tangential .....	42

5.1.3.1.2	Radial	45
5.1.3.1.3	Longitudinal	46
5.1.3.1.4	Volume	48
5.1.3.1.5	T/R Ratio	49
5.1.3.2	Shrinkage from Green to Oven-dried	50
5.1.3.2.1	Tangential	50
5.1.3.2.2	Radial	52
5.1.3.2.3	Longitudinal	53
5.1.3.2.4	Volume	54
5.1.3.2.5	T/R Ratio	56
5.1.3.3	Swelling	57
5.1.3.3.1	Tangential	57
5.1.3.3.2	Radial	58
5.1.3.3.3	Longitudinal	59
5.1.3.3.4	Volume	60
5.1.3.3.5	T/R Ratio	61
5.2	Mechanical Properties	62
5.2.1	Stress on Proportional Limit	62
5.2.2	Modulus of Elasticity (MOE)	63
5.2.3	Modulus of Rupture (MOR)	65
5.2.4	Compressive Strength Parallel to Grain	66
5.2.5	Compressive Strength Perpendicular to Grain	68
5.2.6	Shear Strength Parallel to Grain	71
5.2.7	Hardness	72
CHAPTER VI	DISCUSSION	74
6.1	Physical Properties	74
6.1.1	Moisture Content	74
6.1.1.1	Green Moisture Content	74
6.1.1.2	Air-dried Moisture Content	75
6.1.2	Specific Gravity	76
6.1.2.1	Green Specific Gravity	76
6.1.2.2	Air-dried Specific Gravity	78
6.1.2.3	Oven-dried Specific Gravity	79
6.1.3	Dimensional Change	80
6.1.3.1	Shrinkage from green to air-dried	80
6.1.3.1.1	Tangential	80
6.1.3.1.2	Radial	81
6.1.3.1.3	Longitudinal	82
6.1.3.1.4	Volume	83

6.1.3.1.5	T/R Ratio .....	83
6.1.3.2	Shrinkage from green to oven-dried .....	84
6.1.3.2.1	Tangential .....	84
6.1.3.2.2	Radial .....	85
6.1.3.2.3	Longitudinal .....	85
6.1.3.2.4	Volume .....	86
6.1.3.2.5	T/R Ratio .....	87
6.1.3.3	Swelling .....	87
6.1.3.3.1	Tangential .....	87
6.1.3.3.2	Radial .....	88
6.1.3.3.3	Longitudinal .....	88
6.1.3.3.4	Volume .....	89
6.1.3.3.5	T/R Ratio .....	89
6.2	Mechanical Properties .....	89
6.2.1	Modulus of Elasticity (MOE) .....	89
6.2.2	Modulus of Rupture (MOR) .....	90
6.2.3	Compressive Strength Parallel to Grain .....	91
6.2.4	Compressive Strength Perpendicular to Grain .....	92
6.2.5	Shear Strength Parallel to Grain .....	92
6.2.6	Hardness .....	94
CHAPTER VII CONCLUSION AND RECOMMENDATIONS .....		95
7.1	Conclusion .....	95
7.2	Recommendations .....	97
Literature Cited .....		98
Annexes .....		105

## List of Tables

Table 5.1 Green Moisture Content of Balsa (%) .....	34
Table 5.2 Variant analysis of axial and radial direction to green moisture content	34
Table 5.3. The average value of green moisture content in radial .....	35
Table 5.4 Air-Dried Moisture Content of Balsa (%) .....	36
Table 5.5 Analysis of Variance of Axial and Radial Towards the Air-Dried Moisture Content Value .....	36
Table 5.6 Green Specific Gravity of Balsa .....	37
Table 5.7 Analysis Variance of Axial and Radial Towards the Green Specific Gravity Value .....	37
Table 5.8 Post Test Result of Green Specific Gravity in Radial Direction .....	38
Table 5.9 Air-dried specific gravity of balsa .....	38
Table 5.10 Analysis Variance of Axial and Radial Towards the Air-dried Specific Gravity Value .....	39
Table 5.11 Post Test Result of Air-dried Specific Gravity in Radial Direction ....	39
Table 5.12 Oven-dried Specific Gravity of Balsa .....	40
Table 5.13 The Variant Analysis of Axial and Radial Direction to Oven-dried Specific Gravity .....	41
Table 5.14 Post Test Result of oven-dried Specific Gravity in Radial Direction...	41
Table 5.15 T Shrinkage from Green to Air-dried Condition of Balsa .....	42
Table 5.16 Variant Analysis of Axial and Radial to the T Shrinkage from Green to Air-dried Condition .....	43
Table 5.17 Post Test Result of T Shrinkage from Green to Air-dried Condition Within Axial Direction .....	43
Table 5.18 Post Test Result of T Shrinkage from Green to Air-dried Condition Within Radial Direction .....	44
Table 5.19 The value of R shrinkage from green to air-dried condition of balsa ...	45
Table 5.20 The Variant Analysis of Axial and Radial to the R Shrinkage from Green to air-dried Condition .....	46
Table 5.21 L Shrinkage from Gree to air-dried Condition of Balsa .....	46
Table 5.22 Variant Analysis of Axial and Radial to the L Shrinkage From Green to Air-dried Condition .....	47
Table 5.23 Post Test Result L shrinkage from green to air-dried condition .....	47
Table 5.24 Volume Shrinkage from Green to Air-dried Condition of Balsa .....	48
Table 5.25 Variant Analysis of Axial and Radial to the Volume Shrinkage from Green to Air-dried Condition .....	49
Table 5.26 T/R Ratio from Green to Air-dried of Balsa .....	49
Table 5.27 Variant Analysis of Axial and Radial to the T/R Ratio From Green to Air-dried Condition .....	50
Table 5.28 T Shrinkage From Green to Oven-dried of Balsa .....	50
Table 5.29 Variant analysis of axial and radial to the T shrinkage from green to oven-dried condition .....	51
Table 5.30 Post Test Result of T Shrinkage from Green to Oven-dried Within Axial Direction .....	51

Table 5.31 R Shrinkage from Green to Oven-dried of Balsa .....	52
Table 5.32 Variant Analysis of Axial and Radial to the R Shrinkage from Green to Oven-dried Condition .....	53
Table 5.33 L Shrinkage from Green to Oven-dried Condition of Balsa .....	53
Table 5.34 Variant Analysis of Axial and Radial to the L Shrinkage from Green to Oven-dried Condition .....	54
Table 5.35 Volume Shrinkage from Green to Oven-dried Condition of Balsa .....	54
Table 5.36 Variant Analysis of Axial and Radial to the Volume Shrinkage from Green to Oven-dried Condition .....	55
Table 5.37 Post Test Result of the Shrinkage of Volume from Green to Oven-dried Condition in Radial Direction .....	55
Table 5.38 T/R Ratio from Green to Oven-dried Condition of Balsa .....	56
Table 5.39 Variant Analysis of Axial and Radial to the T/R Shrinkage Ratio From Green to Air-dried Condition .....	57
Table 5.40 T Swelling from Oven-dried to wet condition of Balsa .....	57
Table 5.41 Variant Analysis of Axial and Radial to the T Swelling Oven-dried to Wet Condition .....	58
Table 5.42 R Swelling from Oven-dried to Wet Condition .....	58
Table 5.43 Variant Analysis of Axial and Radial to the R Swelling from Oven-dried to Wet Condition .....	59
Table 5.44 L Swelling from Oven-dried to Wet Condition of Balsa .....	59
Table 5.45 Variant Analysis of Axial and Radial to the L Swelling from Oven-dried to Wet Condition .....	60
Table 5.46 Volume Swelling from Oven-dried to Wet Condition of Balsa .....	60
Table 5.47 Variant Analysis of Axial and Radial to the Volume Swelling from Oven-dried to Wet Condition .....	61
Table 5.48 T/R Ratio of Swelling from Oven-dried to Wet Condition of Balsa ...	61
Table 5.49 Variant Analysis of Axial and Radial to the T/R Ratio from Oven-dried to Wet Condition .....	62
Table 5.50 Stress at Proportional Limit of Balsa .....	62
Table 5.51 Variant Analysis of Axial and Radial to the Stress at proportional limit .....	63
Table 5.52 MOE (Modulus of Elasticity) (x1000kg/cm <sup>2</sup> ) of Balsa .....	63
Table 5.53 Variant Analysis of Axial and Radial to MOE .....	64
Table 5.54 Post Test Result of MOE in Radial Direction .....	64
Table 5.55 MOR of Balsa .....	65
Table 5.56 Variant Analysis of Axial and Radial to MOR .....	65
Table 5.57 Post Test Result of MOR in Radial Direction .....	65
Table 5.58 Compressive Strength Parallel to Grain of Balsa .....	66
Table 5.59 Variant Analysis of Axial and Radial to the Compressive Strength Parallel to Grain .....	67
Table 5.60 Post Test Result Compressive Strength Parallel to Grain in Radial Direction .....	67
Table 5.61 Compressive Strength Perpendicular to Grain of balsa .....	68
Table 5.62 Variant Analysis of Axial and Radial to the Compressive Strength Perpendicular to Grain .....	69

Table 5.63 Post Test Result of Compressive Strength in Perpendicular to Grain in Axial Direction .....	69
Table 5.64 Post Test Result Compressive Strength Perpendicular to Grain in Radial Direction .....	70
Table 5.65 Shear Strength Parallel to Grain of Balsa .....	71
Table 5.66 Variant Analysis of Axial and Radial to Shear Strength Parallel to Grain .....	72
Table 5.67 Wood Hardness of Balsa .....	72
Table 5.68 Variant Analysis of Axial and Radial to the Wood Hardness .....	73

## List of Figures

Figure 4.1 Log and Disk in Standing Tree Position .....	26
Figure 4.2 Physical Properties Sample in Disk Position .....	26
Figure 4.3 Mechanical Properties Sample in Log Position .....	27
Figure 5.1 Green moisture content distributions in three parts of radial direction	35
Figure 5.2 The Pattern of Distribution of Green Specific Gravity in Three Parts of Radial Direction .....	38
Figure 5.3 The Distribution Pattern of Air-dried Specific Gravity in Three Parts of Radial Direction .....	40
Figure 5.4 The Distribution Pattern of Oven-dried Specific Gravity in Three Parts of Radial Direction .....	42
Figure 5.5 The Distribution Pattern of T Shrinkage from Green to Air-dried in Three Parts of Axial Direction .....	44
Figure 5.6 The Distribution Pattern of T Shrinkage from Green to Air-dried in Three Parts of Radial Direction .....	45
Figure 5.7 The Distribution Pattern of L shrinkage From Green to Air-dried Condition in Three Parts of Radial Direction .....	48
Figure 5.8 The Distribution Pattern of T Shrinkage from Green to Oven-dried in Three Parts of Axial Direction .....	52
Figure 5.9 The Distribution Pattern of Volume Shrinkage from Green to Oven-dried Condition in Three Parts of Radial Direction .....	56
Figure 5.10 Post Test Result MOE in Three Parts of Radial Direction .....	64
Figure 5.11 MOR Distribution in Three Parts of Radial Direction .....	66
Figure 5.12 The Distribution Pattern of Compressive Strength Parallel to Grain in Three Parts of Radial Direction .....	68
Figure 5.13 The Distribution of Compressive Strength Perpendicular to Grain in Three Parts of Axial Direction .....	70
Figure 5.14 The Distribution of Compressive Strength Perpendicular to Grain in Three Parts of Radial Direction .....	71

List of Annexes

Moisture Content Data .....	105
Specific Gravity Data .....	106
Shrinkage from Green to Air-dried Condition Data .....	107
Shrinkage from Green to Oven-dried Data .....	108
Swelling from Oven-dried to Wet Condition .....	109
Data of Static Bending Strength .....	110
Data of Compressive Strength Parallel to Grain .....	111
Data of Compressive Strength Perpendicular to Grain .....	112
Data of Shear Strength Parallel to Grain .....	113
Data of Hardness .....	114
Research Documentation .....	115

#### List of Abbreviations

- MC : Moisture Content
- SG : Specific Gravity
- T : Tangential Direction
- R : Radial Direction
- L : Longitudinal Direction
- C : Compressive Strength
- NB : Nearby Bark
- NP : Nearby Pith
