

## **Intisari**

Penelitian ini bertujuan untuk : a) mendeskripsikan profil dan kegiatan anggota dan b) mengetahui perubahan sosial di Kelompok Pembudidaya Ikan (Pokdakan) Mina Jaya di Desa Sendangtirto, Kecamatan Berbah, Kabupaten Sleman. Pengumpulan data primer dari anggota pokdakan menggunakan metode sensus, yaitu semua anggota aktif (10 orang) menjadi responden. Data sekunder diperoleh dari studi dokumen, yaitu arsip pokdakan, monografi desa, dan data Dinas Pertanian, Pangan, dan Perikanan. Hasil penelitian menunjukkan bahwa perubahan struktur organisasi terjadi pada tahun 2002 dan 2009. Pengambilan keputusan dilakukan dengan musyawarah. Jumlah anggota terbanyak pada tahun 2003-2009 (30 orang), kemudian menurun, dan tinggal 10 orang pada tahun 2017. Anggota mendapatkan manfaat dari pokdakan dalam bentuk manfaat sosial, pendapatan, produksi, keterampilan, dan informasi. Interaksi anggota dengan kelompok (internal) cukup intensif, sedangkan interaksi dengan penyuluh mengalami peningkatan pada tahun 2011 dan menurun setelah pergantian penyuluh. Interaksi kelompok dengan pemerintah kabupaten mengalami peningkatan pada tahun 2011-2012.

Kata kunci : perubahan sosial, Pokdakan Mina Jaya, Kabupaten Sleman.

## **Abstract**

The aims of study were to described the profile and activities of fish farmers group of Mina Jaya and to learned about social change in this group. The group is located in Sendangtirto village, Sleman Regency. Primary data were collected from all of active group members (10 people). They were interviewed using a questionnaire. Secondary data were obtained from the group archives, village monographs, and fisheries service office of Sleman Regency. The results of the study showed that changes in organizational structure occurred in 2002 and 2009. Decision making was done by deliberation. The highest number of members in 2003-2009 (30 people) then declined, and there were only 10 people left in 2017. Members get benefits from the policy in the form of social benefits, total income, productions, skills and information which increased in 2011-2012 and decreased in 2016. The interaction of members (internal) groups was quite intensive, while interactions with extension agents increased in 2011 and decreased after the extension of the extension staff. Group and government interaction has increased in 2011-2012
