TITLE PAGE.....	i
AUTHORIZATION PAGE.....	ii
DECLARATION.....	iii
DEDICATION.....	iv
ACKNOWLEDGMENT.....	v
ABSTRACT.....	vi
INTISARI.....	vii
TABLE OF CONTENT.....	viii
LIST OF FIGURES.....	xiii
LIST OF TABLES.....	xv
CHAPTER I: INTRODUCTION	
I.1. Background.....	1
I.2. Problem Formulation.....	2
1.3. Research Objectives.....	2
1.4. Advantages of Research.....	3
1.5. Scope of Research.....	3
1.5.1. Scope of Study Area.....	3
1.5.2. Scope of Work.....	6
1.6. Research Limitation.....	6
1.7. Previous Works.....	7
1.8. Thesis Structure.....	8
CHAPTER II: LITERATURE REVIEW	
II.1. Geological Setting of Yogyakarta Special Province.....	11
II.1.1. Geomorphology.....	11
II.1.2. Stratigraphy.....	11
II.1.2.1. Tertiary succession.....	11
II.1.2.2. Quaternary succession.....	12
II.2. Hydrogeological conditions of Yogyakarta Groundwater Basin.....	14
II.2.1. Basin Geometry.....	14

II.2.2 Aquifer System	14
II.2.3 Groundwater Table	15
II.2.4 Groundwater Quality.....	17
II.3. Introduction to Groundwater Modeling.....	17
II.3.1 Types of Groundwater Models	18
II.3.2. Numerical Modeling	18
II.3.3. Steps in Designing Numerical Models.....	18
II.3.4. Data Requirement for Numerical Modeling.....	20
II.4. Contaminant Transport Mechanism	22
II.4.1. Advection	22
II.4.2. Diffusion.....	22
II.4.3. Dispersion.....	23
II.4.4. Sorption	23
II.4.5. Decay.....	23
II.4.6. Biodegradation.....	24
II.5. Governing Equations of Flow and Transport Modeling.....	26
II.5.1. Darcy's Law	26
II.5.2. Law of Conservation of Mass.....	27
II.5.3. General Equation of Solute Transport.....	27
II.5.4. Boundary Conditions	28
II.5.4.1. Flow boundaries	28
II.5.4.2. Transport boundaries	30
II.6. Organic Contaminant in Groundwater	31
II.6.1 Physical Properties of Organic Compounds.....	32
II.6.2. Degradation of Organic Compounds	33
II.7. Phenol	34
II.7.1. Sources of Phenol	34
II.7.2. Phenol and Health Effects	34
II.7.3. Physical and Chemical Properties of Phenol.....	35
II.7.4. Fate and Transport Process of Phenol.....	36
II.8. Hypothesis.....	37

CHAPTER III: RESEARCH METHODOLOGY

III.1. Research Materials	39
III.1.1. Research Fund	39
III.1.2. Available Secondary Data.....	39
III.1.3. Primary Data Collection.....	39
III.1.4. Research Equipment and Tools	40
III.2. Research Phases	40
III.3. Process of Groundwater flow and transport Modeling	44

CHAPTER IV: CHARACTERISTICS OF RESEARCH AREA

IV.1. Hydrological Conditions	47
IV.1.1. Rainfall.....	47
IV.1.2. Evapotranspiration.....	49
IV.1.3. Runoff	50
IV.1.4. Groundwater Recharge	52
IV.2. River and Drainage System	52
IV. 3. Geological condition of study area	54
IV.4. Fieldwork Data	56
IV.4.1. Groundwater Table Measurement	56
IV.4.2. River Measurement.....	56
IV.4.3. Pumping Test	58
IV.4.4. Geophysical Survey	59
IV.4.5. Drilling Borehole.....	60
IV.5. Hydrogeological Condition	62
IV.5.1. Aquifer System.....	62
IV.5.2. Aquifer Base.....	62
IV.5.3. Aquifer Characteristics	62
IV.6. Samplings	65

CHAPTER V: DATA PROCESSING AND ANALYSIS

V.1. Understanding Natural System	68
V.2. Conceptual Model	71
V.3. Flow model setup	74

V.3.1. Model Discretization.....	74
V.3.2. Model Boundaries.....	76
V.3.2.1. Constant heads	76
V.3.2.2. Rivers.....	76
V.3.2.3. No flow	78
V.3.2.4. Recharge	78
V.3.3. Hydraulic Properties.....	78
V.3.4 Flow Model Assumption	78
V.4. Groundwater Flow model Result	79
V.4.1. Uncalibrated Flow Model Result.....	79
V.4.2. Calibrated Flow Model Result.....	79
V.4.3. Error Analysis.....	81
V.4.4. Groundwater Mass Balance.....	82
V.4.5. Parameter Sensitivity Analysis (PSA)	83
V.4.6. Groundwater Flow	87
V.5. Transport Model Setting up	88
V.6. Transport Input Parameters.....	88
V.6.1. Observation Concentration.....	88
V.6.1.1. Phenol observed concentration	88
V.6.1.2. Dissolved oxygen concentration	89
V.6.2. Source.....	89
V.6.3. Stoichiometric Ratio	92
V.6.4. Dispersion and Diffusion	92
V.6.5. Transport Model Assumption.....	93
V.7. Transport Model Output	93
V.7.1. Uncalibrated Transport Model Result.....	93
V.7.2. Calibrated Transport Model Result.....	94
V.7.3. Phenol Degradation.....	95
V.7.4. Phenol Plume.....	97

CHAPTER VI: MODEL APPLICATION AND DISCUSSION

VI.1. Model Application	101
VI.2. Model Prediction.....	101

VI.3. Groundwater Remediation	105
CHAPTER VII: CONCLUSION AND RECOMMENDATION	
VII.1. Conclusion.....	110
VII.2. Recommendation.....	111
REFERENCES	113
APPENDICES.....	117
Appendix A: Climate and Meteorological Data	118
Appendix A1: Rainfall data.....	118
Appendix A2: Meteorological data for Yogyakarta city	119
Appendix A3: Evapotranspiration calculation	120
Appendix A4: Calculation of CN	122
Appendix B: Dug Wells Measurement.....	124
Appendix C: Calculation of Hydraulic Conductivity.....	128
Appendix D: Borehole and Geoelectric Survey.....	132
Appendix D1: Borehole data.....	132
Appendix D2: Geoelectric interpretation.....	133
Appendix E: Soil Analysis Result.....	140
Appendix F: Laboratory Result of Water Samplings.....	143
Appendix G: Pumping Wells Result	144

LIST OF FIGURES

Figure 1.1: Location of study area	4
Figure 1.2: Situation map of study area	5
Figure 2.1: Geological map of Yogyakarta groundwater basin.....	13
Figure 2.2: Hydrogeological cross section of Merapi aquifer system	16
Figure 2.3: Process of contaminant migration in groundwater	24
Figure 2.4: First kind of boundary condition.....	29
Figure 2.5: Second and third kind of boundary condition.....	30
Figure 2.6: Aerobic degradation of benzene and anaerobic degradation of phenol in the presence of nitrate.....	33
Figure 3.1: Flow chart of research methodology	43
Figure 3.2: Process of groundwater modeling.....	45
Figure 4.1: Monthly and annual rainfall data in study area.....	48
Figure 4.2: Relationship between rainfall, curve number and runoff	51
Figure 4.3: Drainage system at study area	53
Figure 4.4: Limestone outcrop of hilly zone	54
Figure 4.5: Geological map of the study area.....	55
Figure 4.6: Dug wells location map	57
Figure 4.7: Electric resistivity survey	59
Figure 4.8: Drilling borehole	60
Figure 4.9: Locations of geoelectric survey and borehole	61
Figure 4.10a: Hydrogeological cross-section of research area.....	63
Figure 4.10b: Hydrogeological cross-section of research area	64
Figure 4.11: Sampling Locations.....	66
Figure 5.1a: Natural system of study area.....	69
Figure 5.1b: Cross section of natural system of study area.....	70
