

LIST OF CONTENTS

Approval page	ii
Authenticity Statement.....	iii
Preface	iv
List of content	vi
List of tables.....	viii
List of figures	ix
List of abbreviation	x
Abstract	xi
Intisari	xii
Chapter I: Introduction	
1. Background	1
2. Problem Formulation	4
3. Importance of Research.....	4
4. Objectives.....	5
Chapter II: Literature Review	
1. Morphology of <i>Aedes sp.</i> mosquito	6
2. Surveillance of <i>Ae. aegypti</i> and <i>Ae. albopictus</i>	8
3. Entomological Parameters	9
4. Maya Index.....	9
Chapter III: Study Methodology	
1. Research Design.....	12
2. Location of Study	12
3. Subject of Research.....	12
4. Object of Research	12
5. Data Collection.....	12
6. Tabulation and Data Analysis	13
Chapter IV: Result and Discussion	
1. Larvae survey and Identification of Mosquito Species.....	15

2. Types of Water Container That Become The Breeding Site of <i>Aedes sp.</i> and Its Category	16
3. Population Density of <i>Aedes sp.</i>	17
4. BRI, HRI status and Maya Index	18
5. Correlation Between Air Humidity, Temperature and Population Density of <i>Aedes sp.</i>	20
6. Research Limitation	21
Chapter V: Conclusion and Recommendation	
1. Conclusion	22
2. Recommendation	22
References	23
Appendices	

LIST OF TABLES

Table 1. Examples of Controllable Sites and Disposable Sites	11
Table 2. Maya Index: Entomological matrix (Lozano et al., 2002).....	14
Table 3. Result of <i>Aedes</i> larvae survey.....	15
Table 4. Species found in water containers.....	16
Table 5. Types of water container found in Selokan Mataram	16
Table 6. Types of water container found in Bukit Cinta.....	17
Table 7. Population density of <i>Aedes sp.</i>	17
Table 8. BRI and HRI limit based on the proportion of CS and DS in each house in Selokan Mataram	18
Table 9. Percentage of house in each category of HRI and BRI in Selokan Mataram.....	18
Table 10. BRI and HRI limit based on the proportion of CS and DS in each house in Bukit Cinta	19
Table 11. Percentage of house in each category of HRI and BRI in Bukit Cinta	19
Table 12. Maya Index based on HRI and BRI status in Selokan Mataram	19
Table 13. Maya Index based on HRI and BRI status in Bukit Cinta	19
Table 14. Percentage of house based on Maya Index status	20
Table 15. Correlation of air humidity and temperature to the breeding of <i>Aedes sp.</i>	20

LIST OF FIGURES

Figure 1. Average number of suspected or confirmed dengue cases reported to WHO, 2010-2016 (WHO, 2017)	1
Figure 2. Number of suspected or laboratory-confirmed dengue cases notified to WHO, 1990-2015 (WHO, 2017)	2
Figure 3. Eggs of <i>Ae. aegypti</i> (Zettel and Kaufman, 2008)	6
Figure 4. Larvae of <i>Ae. aegypti</i> (Blasberg, <i>et al</i> , 2016)	6
Figure 5. Larvae of <i>Ae. albopictus</i> (Leslie & Maruniak, 2004)	7
Figure 6. Pupa of <i>Ae. aegypti</i> (ICPMR, 2004)	7
Figure 7. Adult <i>Ae. aegypti</i> (Leslie & Maruniak, 2004)	8
Figure 8. Adult <i>Ae. albopictus</i> (Entomology today, 2016)	8

LIST OF ABBREVIATIONS

Ae	Aedes
BI	Breteau Index
BRI	Breeding Risk Index
CI	Container Index
CS	Controllable Sites
DS	Disposable Sites
DHF	Dengue Hemorrhagic Fever
H	Humidity
HI	House Index
HRI	Hygiene Risk Index
ICPMR	Institute of Clinical Pathology and Medical Research
MI	Maya Index
T	Temperature
Y	Number of larvae in each house
