| <b>QUOTATION PAGE</b>        | <b>vi</b>   |
| <b>FOREWORD</b>              | <b>vii</b>  |
| <b>TABLE OF CONTENTS</b>     | <b>ix</b>   |
| <b>LIST OF FIGURES</b>       | <b>xii</b>  |
| <b>LIST OF TABLES</b>        | <b>xiv</b>  |
| <b>LIST OF ABBREVIATIONS</b> | <b>xv</b>   |
| <b>ABSTRACT</b>              | <b>xvi</b>  |
| <b>INTISARI</b>              | <b>xvii</b> |
| <b>I INTRODUCTION</b>        | <b>1</b>    |
| 1.1 Background               | 1           |
| 1.2 Research Question        | 2           |
| 1.3 Research Scope           | 2           |
| 1.4 Research Objective       | 3           |
| 1.5 Research Benefits        | 3           |
| <b>II LITERATURE REVIEW</b>  | <b>4</b>    |
| <b>III THEORETICAL BASIS</b> | <b>9</b>    |
| 3.1 Fulfillment Service      | 9           |

|           |   |           |
|-----------|---|-----------|
| 3.2       | eCommerce   | 10        |
| 3.2.1     | B2B - Business to Business  | 11        |
| 3.2.2     | B2C - Business to Customer  | 11        |
| 3.2.3     | C2C - Customer to Customer  | 12        |
| 3.2.4     | C2B - Customer to Business  | 12        |
| 3.3       | Blibli.com  | 13        |
| 3.4       | Greedy Algorithm  | 14        |
| 3.5       | Bin Packing Problem   | 15        |
| 3.6       | Largest Area First-Fit (LAFF) Algorithm                               | 17        |
| <b>IV</b> | <b>RESEARCH METHOD</b>  | <b>22</b> |
| 4.1       | Problem Analysis  | 22        |
| 4.2       | Research Stages   | 32        |
| 4.3       | Data Collection   | 35        |
| 4.4       | System Architecture   | 36        |
| 4.4.1     | Extracting Data   | 38        |
| 4.4.2     | Checking Fleets that can Access                                       | 39        |
| 4.4.3     | Checking Products to Each Top Three Fleet Will Use                    | 42        |
| 4.4.4     | Positioning Products using LAFF Algorithm                             | 45        |
| 4.4.5     | Sending E-mail to Stakeholder   | 49        |
| 4.5       | System Test Design  | 49        |
| 4.5.1     | Running Time  | 50        |
| 4.5.2     | Space Utilization Result  | 50        |
| <b>V</b>  | <b>IMPLEMENTATION</b>   | <b>52</b> |
| 5.1       | Specification   | 52        |
| 5.2       | System Implementation   | 52        |
| 5.2.1     | Implementation of Extracting Product Data that Has Been<br>Uploaded   | 53        |
| 5.2.2     | Implementation of CBM Calculation From Extracted Data                 | 54        |
| 5.2.3     | Implementation of Sorting Data Based on Warehouse and CBM<br>and Date | 54        |
| 5.2.4     | Implementation of Fleet Accessibility Checks                          | 55        |

|                                  |  |           |
|----------------------------------|--|-----------|
| 5.2.5                            | Implementation of Product Checks to Each Top Three Recommendation Fleet                                      | 56        |
| 5.2.6                            | Implementation of Positioning Products using LAFF Algorithm  | 58        |
| 5.2.7                            | Implementation of Send E-mail to Merchant and Logistic Service About The Product detail Need to be Picked Up | 67        |
| 5.2.8                            | Implementation of Calling All of The Methods   | 69        |
| 5.3                              | Implementation of System Testing   | 71        |
| <b>VI RESULTS AND DISCUSSION</b> |  | <b>73</b> |
| 6.1                              | Result of System Implementation  | 73        |
| 6.1.1                            | Result for Uploading Product Data  | 73        |
| 6.1.2                            | Result for Checking Fleets can Access  | 74        |
| 6.1.3                            | Result for Checking Products to Each Top Three Fleet Will Use  | 75        |
| 6.1.4                            | Result for Positioning Products using LAFF Algorithm   | 76        |
| 6.1.5                            | Result for Sending E-mail to Stakeholder   | 77        |
| 6.2                              | Result of System Testing Implementation  | 78        |
| 6.2.1                            | Test Result Using 500 Product Data   | 79        |
| 6.2.2                            | Test Result Using 1000 Product Data  | 83        |
| 6.2.3                            | Test Result Using 1500 Product Data  | 86        |
| 6.2.4                            | Test Result Using 2000 Product Data  | 88        |
| 6.2.5                            | Test Result of Running Time Performance  | 90        |
| <b>VII CONCLUSION</b>            |  | <b>91</b> |
| 7.1                              | Conclusion   | 91        |
| 7.2                              | Future Work  | 91        |
