CONTENTS	vi
LIST OF TABLES.....	viii
LIST OF FIGURES	ix
APPENDIX CONTENT	x
INTISARI	xi
ABSTRACT	xii
CHAPTER I INTRODUCTION.....	1
1.1. Background.....	1
1.2. Objectives	3
1.3. Expected Outcome.....	3
CHAPTER II LITERATURE REVIEW	4
2.1. Xylan.....	4
2.2. Xylanase	6
2.2.1. Properties of xylanase from microorganism.....	6
2.2.2. Methods to produce xylanase	9
2.2.3. Purification methods of xylanase	12
2.2.4. Application of xylanase.....	15
2.3. Empty Fruit Bunches	18
2.4. Xylooligosaccharides.....	19
CHAPTER III MATERIALS AND METHODS	25
3.1. Materials	25
3.2. Methods	25
3.2.1. Inoculum preparation.....	25
3.2.2. Production of xylanase	26
3.2.3. Preliminary step of partial purification of xylanase	26
3.2.4. Partial Purification of xylanase	28

3.2.5.	Characterization of partially purified xylanase	29
3.2.6.	Extraction of xylan from EFB	30
3.2.7.	Optimization of xylooligosaccharides production.....	31
3.2.8.	HPLC analysis of xylooligosaccharides hydrolysates.....	32
3.2.9.	Assay of xylanase activity	33
3.2.10.	Determination of protein concentration.....	33
3.2.11.	SDS-PAGE analysis	34
3.2.12.	Statistical analysis	34
CHAPTER IV RESULTS AND DISCUSSION		34
4.1.	Preliminary step of partial purification of xylanase.....	34
4.2.	Partial purification of xylanase	37
4.3.	Characterization of partially purified xylanase.....	40
4.4.	Optimization of xylooligosaccharides production	43
CHAPTER V CONCLUSION		48
