| LIST OF TABLES | x |
| LIST OF FIGURES | xi |
| INTISARI | xiii |
| ABSTRACT..... | xiv |
| CHAPTER 1 INTRODUCTION | 1 |
| 1.1. Background | 1 |
| 1.2. Problem Statement | 4 |
| 1.3. Objectives..... | 4 |
| 1.4. Hypothesis..... | 4 |
| CHAPTER 2 LITERATURE REVIEW | 5 |
| 2.1. Biopolymers and Biodegradable Polymers..... | 5 |
| 2.1.1. Biodegradable Classification | 5 |
| 2.1.2. Properties of Biodegradable Materials | 7 |
| 2.2. Poly(lactic acid)..... | 11 |
| 2.2.1. Structure of Poly(lactic acid) and Synthesis Method | 12 |
| 2.2.2. Properties of Poly(lactic acid) | 15 |
| 2.2.3. Poly(lactic acid) Foam Processing Technologies | 19 |
| 2.3. Epoxidized Natural Rubber..... | 20 |
| 2.3.1. Structure of Epoxidized Natural Rubber (ENR) and Synthesis Method | 21 |
| 2.3.2. Properties of Epoxidized Natural Rubber..... | 22 |
| 2.4. Chemical Compression-molding Method | 23 |
| CHAPTER 3 MATERIALS AND METHODS | 24 |
| 3.1. Materials..... | 24 |
| 3.2. Method | 24 |
| 3.2.1. Sample Preparation..... | 24 |

| | |
|--|----|
| 3.3. Analysis..... | 26 |
| 3.3.1.Morphological Characterization..... | 26 |
| 3.3.2.Density Measurement..... | 26 |
| 3.3.3.Mechanical Properties | 26 |
| 3.3.4.Data Analysis | 28 |
| CHAPTER 4 RESULTS AND DISCUSSIONS..... | 29 |
| 4.1. Effect of PLA/ENR Ratio | 29 |
| 4.1.1.Morphology of PLA/ENR Foams | 29 |
| 4.1.2.Foam Density | 32 |
| 4.1.3.Mechanical Properties | 34 |
| 4.2. Effect of Blowing Agent Concentration | 39 |
| 4.2.1.Morphology of PLA/ENR Foams | 39 |
| 4.2.2.Foam Density | 41 |
| 4.2.3.Mechanical Properties | 43 |
| CHAPTER 5 CONCLUSIONS | 47 |
| 5.1. Conclusions..... | 47 |
| 5.2. Suggestions | 47 |
| 5.3. Future Perspective..... | 48 |
| BIBLIOGRAPHY | 49 |
| APPENDICES | 53 |
