ABSTRACT

Bali Regulations Number 16 of 2009 regulates strategic tourism areas, such as Nusa Dua, Seminyak, Kuta, Ubud, and several other areas. Jimbaran is one of the most favorite destinations for tourists who come to Bali because it is famous for its beautiful beaches and unique culinary, The Jimbaran grilled fish. Thanks to the attraction, tourism facilities in this area are growing rapidly. Based on data from the BPS Bali, between 2011-2015 the average growth of starred hotels was 9.2%. This conditions in Bali also occur in Jimbaran. Research data from Colliers International in 2016 stated that there were around 18 hotels with 4 star and 5-star classifications in the process of construction in the Jimbaran. In addition to hotels, other facilities that also function as supporting facilities for tourism activities are developed. Investors have a significant role in this development. Not only investors, local communities as indigenous peoples in Jimbaran are also believed to have a considerable role. To find out how the role of the local communities was conducted, interviews were conducted with several informants who were directly involved in the governance of the Desa Adat and also observation in Jimbaran. The results of this study are expected to be able to provide insight into the development of tourism in a region that is able to involve local communities.
