

INTISARI

Penelitian ini mengkaji peran organisasi Himpunan Mahasiswa Islam dalam pembentukan pemimpin mahasiswa dan implikasinya terhadap ketahanan pribadi (Studi pada Himpunan Mahasiswa Islam di Kota Yogyakarta). Adapun tujuan dari penelitian ini adalah untuk menganalisis peran organisasi HMI dalam pembentukan pemimpin mahasiswa serta mengetahui ketahanan pribadi dari anggota organisasi.

Penelitian ini dilakukan di Kota Yogyakarta. Penelitian ini menggunakan metode deskriptif kualitatif. Teknik pengumpulan data dilakukan melalui lima tahapan yaitu 1) observasi pada kegiatan-kegiatan organisasi, 2) wawancara dengan empat belas informan yang meliputi 1 Ketua HMI Cabang Yogyakarta, 1 ketua bidang, 10 pemimpin komisariat dan 2 anggota HMI, 3) dokumentasi, 4) kepustakaan dan 5) internet. Teknik analisis data dalam penelitian ini melalui tahap pengumpulan data, reduksi data, penyajian data dan penarikan kesimpulan.

Hasil penelitian ini menunjukkan bahwa peran organisasi HMI dalam pembentukan pemimpin mahasiswa dilakukan melalui program-program yang dilakukan secara rutin oleh organisasi pada tingkatan cabang dan komisariat di setiap universitas dan fakultas. Program yang dilaksanakan yaitu sekolah pengaderan dan latihan kader. Setelah mengikuti program dari organisasi tersebut terlihat bahwa ketahanan pribadi dari masing-masing anggota mengalami perubahan dan peningkatan dengan terwujudnya peningkatan sikap kepemimpinan dan rasa tanggung jawab dari masing-masing anggota Himpunan Mahasiswa Islam.

Kata Kunci: HMI, Ketahanan Pribadi, Kepemimpinan.

ABSTRACT

This current research investigated the role of the Muslim Students' Association (HMI) in developing the leadership in most of university students (A Case Study of Personal resilience on Muslim students' association in Yogyakarta). This research aims to analyze the main role of HMI organization in growing student leader and the implication of it on personal resilience.

The study was conducted in Yogyakarta. A qualitative descriptive design was used in this research. While, the technique of collecting data was done in four phases, there were observing the program which done by the organization, interviewing 14 appropriate stakeholders that hold a leader position in the core of organization including the leader of HMI of Yogyakarta, one of the chairman of a spesific sector, 10 commissioner of HMI and 2 members of HMI, some documentations, literature review, and the internet sources. The data was anlyzed through the phases of data collecting, data reduction, data presentation, and the drawing of conclusion.

The result shows that HMI has a major role in developing leadership in most university students through out several program which are conducted routinely. The program are held in the way of bottom-up. It starts from the branch up to the office of its commissioner spread out in most of faculty and university. HMI mostly agendas are forming of cadre by schooling the members and get into cadre practicing. As a result, after joining the program of the organization, they found their self with a better personal resilience respectively on experienced a high movement of changing and reinforcement due to self-evaluation, a strong leadership character, and sense of responsibility from every members on Himpunan Mahasiswa Islam.
