

TABLE OF CONTENTS

ABSTRACT	i
INTISARI	ii
TABLE OF CONTENTS	iii
I. INTRODUCTION	1
1.1 Research Question	2
1.2 Research Methodology	2
1.3 Scientific and Practical Relevance	3
1.4 Thesis Outline	3
II. THEORETICAL FRAMEWORK	4
2.1 Diagnosis-Related Group-Based Payment System	4
2.1.1 DRG-Based Payment System in Europe	5
2.2 Quality of Care	5
2.2.1 The Dimension of Outcome of Medical Care	7
2.2.2 The Dimension of the Process of Medical Care	8
2.2.3 The Dimension of Hospital Setting	9
2.2.4 Evaluating Quality of Medical Care Aspect in DRG-Based Payment System	10
III. METHODOLOGY	12
3.1 Data Collection and Analysis	12
IV. DISCUSSION AND ANALYSIS	14
4.1 United Kingdom: The Healthcare Resource Group System	14
4.1.1 Impact of PbR on Quality of Care	15
4.1.1.1 Incentive Effects of PbR on Quality of Care	15
4.1.1.2 Empirical Evidence of PbR	17
4.2 Germany: G-DRG System	19
4.2.1 Impact of G-DRG-Based Payment System on Quality of Care	20
4.2.1.1 Incentive Effects of G-DRG-Based Payment System on Quality of Care	20
4.2.1.2 Empirical Evidence of G-DRG-Based Payment System	20
4.3 Effectiveness of DRG-Based Payment System in Improving Quality of Care	23
V. CONCLUSION, LIMITATIONS, AND FURTHER RESEARCH	34
5.1 Conclusion	34
5.2 Limitations and Avenues for Further Research	35
VI. REFERENCES	36
