ABSTRACT	i
INTISARI	ii
LIST OF TABLES	v
LIST OF FIGURES	vi
INTRODUCTION	1
1.1. Background	1
1.2. Problem statement.....	3
1.3. Research Questions	4
1.4. Research Objectives.....	4
1.5. Research Benefits.....	5
LITERATURE REVIEW	6
2.1 Sustainability of Marine Protected Area	6
2.2 System Dynamics Modelling.....	9
METHODOLOGY	12
3.1 Site Selection	12
3.2 Research Variables.....	12
3.3 Data Collection	14
3.4 Data Analysis	15
3.4.1 CLD analysis.....	15
3.4.2 Model formulation	16
a. Fish Population Dynamics	16
b. Coral Reef Coverage Dynamics.....	17
c. Tourism-pollution Dynamics	18
3.4.3 Model testing	19
3.4.4 Sustainability Assessment.....	22
3.5 Research Framework	22
STUDY AREA	24
RESULTS AND DISCUSSION	28
5.1 Result	28
5.1.1 Causal Loop Diagram (CLD).....	28
5.1.2 System Dynamics Modelling.....	31
a. Fish Population Dynamics	32

b. Coral Reef Coverage Dynamics.....	35
c. Tourism-pollution Dynamics	36
d. Sensitivity Analysis	38
5.2 Discussion	39
5.2.1 Sustainability Assessment.....	39
5.2.2 Management Implications.....	41
a. Lowering Total Allowable Catch.....	42
b. Coral Transplantation.....	44
c. Better waste management	45
CONCLUSION AND RECOMMENDATION.....	48
6.1 Conclusion	48
6.2 Future Research Recommendation	49
REFERENCES	50
Appendix.....	54

LIST OF TABLES

Table 1. Comparison of Sustainability Criteria	8
Table 2. Previous Study in Marine and Coastal Management.....	13
Table 3. Data input for system dynamics model of Pieh Marine Park	14
Table 4. Cross-impact matrix of the CLD for Pieh marine park.....	31
Table 5. Data input for multiple linear regression of CPUE.....	33
Table 6. Multiple linear regression result comparison.....	33
Table 7. Multiple parameters for sensitivity analysis	38
Table 8. The result of simulating waste	47

LIST OF FIGURES

Figure 1. Example of Causal Loop Diagram	11
Figure 2. The stock and flow diagram for three conditions of sustainability	11
Figure 3. The Hypothetical CLD for Pieh marine park	14
Figure 4. Research Framework	23
Figure 5. Zoning Map of Pieh marine park.....	25
Figure 6. Coral reef coverage in Pieh marine park	26
Figure 7. The number of tourists in Padang Pariaman.....	27
Figure 8. Captive fishery production at the Padang Pariaman.....	27
Figure 9. A focus group discussion with Pieh marine park officers	29
Figure 10. The Verified CLD for Pieh marine park.....	30
Figure 11. The system dynamics model of Pieh marine park.....	32
Figure 12. The exponential graph of the number of fishing gears	34
Figure 13. Comparison of simulated and actual catch data	35
Figure 14. Comparison of simulated and actual coral reef coverage data	36
Figure 15. The simulation results of tourism-pollution dynamics	38
Figure 16. The sensitivity analysis result of key variables	39
Figure 17. The simulation results for renewable resource indicators	40
Figure 18. The simulation results for pollution indicators.....	40
Figure 19. Lowering total allowable catch.....	43
Figure 20. Increasing the coral recruitment rate	45
Figure 21. The change in pollution due to decreasing waste discharge.....	46
