

Table of Contents

Acknowledgments.....	iv
Table of Contents	v
List of Tables.....	vii
List of Figures	viii
Chapter 1. Introduction	1
1.1 Background	1
1.2 Problem Formulation	4
1.3 Research Location.....	5
1.4 Research Question.....	8
1.5 Research Objectives	9
1.6 Research Originality.....	9
1.7 Research Significance	11
1.8 Organization of Thesis	11
Chapter 2. Literature Review	13
2.1 Socio-Ecological Aspects of Coastal Area	13
2.2 Impact of Coastal Hazards to Community Livelihood	14
2.3 Community Resilience	17
2.4 Assessment of Collective Community Resilience	19
2.5 Participatory Planning to Enhance Community Resilience	22
Chapter 3. Research Methodology	26
3.1 Research Approach	26
3.2 Research Flow	29
3.3 Collective Community Resilience	33
3.3.1 Data Collection.....	33
3.3.2 Data Analysis	37
3.4 Participatory Planning to Enhance Community Resilience	37
3.4.1 Data Collection.....	37
3.4.2 Data Analysis	38
Chapter 4. Description of Study.....	40
4.1 Geographical Characteristics	40
4.2 Socio-economic Characteristics	45
4.3 Impact of Coastal Hazards to Local Livelihood	49
Chapter 5. Analysis and Results	54
5.1 Collective Community Resilience	54
5.1.1 Composite Resilience.....	54
5.1.2 Socio-economic Resilience Score	55
5.1.3 Institutional Resilience Score.....	58
5.1.4 Natural Resilience Score	60
5.1.5 Physical Resilience Score	61
5.1.6 Coastal Zone Management Resilience Score.....	63
5.2 Participatory Action Planning	65
5.2.1 Focus Group Discussion	65

5.2.2	Prioritization of Tasks	70
5.2.3	Prioritization of Actions	73
5.3	Discussion	78
Chapter 6.	Conclusion and Recommendation	86
6.1	Conclusion	86
6.2	Recommendation.....	87
6.3	Limitation.....	87
References	89
Appendix 1.	Household questionnaire form in English.....	95
Appendix 2.	Household questionnaire form in Indonesian (Bahasa)	99

List of Tables

Table 1.1. A series of previous study on resilience assessment.....	10
Table 2.1. Aspects of resilience from several resilience frameworks.....	22
Table 3.1. Fieldwork Timetable	27
Table 3.2. Type of Data.....	34
Table 3.3. Dimensions, indicators, and variables of CCRF.....	36
Table 4.1. Demographic Condition of Gunungkidul Coastal Area.....	44
Table 4.2. Regional Economic Growth rate in Yogyakarta Province 2013-2017	45
Table 5.1. Result of Collective Community Resilience in Baron Beach.....	54
Table 5.2. Focus Group Discussion Result	66
Table 5.3. Tasks and Actions Identified from FGD.....	67
Table 5.4. Profile of Respondents	69

List of Figures

Figure 1.1 Research location.....	8
Figure 2.1. The 360 ⁰ Assesment Map	20
Figure 2.2. Theoretical Framework	25
Figure 3.1. Research steps.....	28
Figure 3.2. FGD and Household Survey in three communities	30
Figure 3.3. Objective and Output of each method	31
Figure 4.1. Map of Gunungkidul Coastal Area.....	40
Figure 4.2. Physiographic zone of Gununkidul Regency	42
Figure 4.3. The Southern Road Network connects Gunungkidul Coastal Area	47
Figure 4.4. Facilities in Baron Beach.....	48
Figure 4.5. Activities in Baron Beach.....	49
Figure 4.6. Impact of Coastal Hazards in Baron Beach.....	50
Figure 4.7. Early Warning System in Baron Beach.....	52
Figure 5.1. Composite Resilience of Three Communities	55
Figure 5.2. Socio-economic Resilience of Three Communities	56
Figure 5.3. Institutional Resilience of Three Communities	59
Figure 5.4. Natural Resilience of Three Communities	61
Figure 5.5. Physical Resilience of Three Communities.....	62
Figure 5.6. Coastal Zone Management Resilience of Three Communities	63
Figure 5.7. Prioritization of tasks of fishery community	70
Figure 5.8. Prioritization of tasks by tourism community	71
Figure 5.9. Prioritization of tasks by mix-livelihood community.....	72
Figure 5.10. Prioritization of actions by fishery community	74
Figure 5.11. Prioritization of actions by tourism community	75
