

TABLE OF CONTENTS

Title Sheet	i
Authorization Sheet	ii
Statement Sheet	iii
Foreword Sheet	iv
Table of Contents	vii
List of Tables	xi
List of Figures	xiii
Abstrak	xiv
Abstract	xvi
CHAPTER I INTRODUCTION	1
1.1. Background.....	1
1.2. Problem Statements.....	5
1.3. Research Questions.....	6
1.4. Research Objectives.....	7
1.5. Research Contribution.....	7
1.6. Research Scope.....	8
1.7. Outline of the Writing.....	9
CHAPTER II THEORITICAL FRAMEWORK	10
2.1. Organic Waste.....	10
2.2. Waste Management.....	11
2.2.1. Community-Based 3R Waste Management.....	11
2.2.2. Waste Treatment Method.....	13

2.3.	Bioconversion.....	17
2.3.1.	Definition of Bioconversion.....	17
2.3.2.	Insect as Bioconverter.....	18
2.3.3.	Black Soldier Fly Larvae Composting.....	19
2.4.	Feasibility Study and Business Plan.....	23
2.4.1.	Definition of Feasibility Study.....	23
2.4.2.	The Importance of Feasibility Study.....	23
2.4.3.	Understanding a Business Plan.....	24
2.4.4.	The Interconnection between Feasibility Study and Business Plan.....	25
2.5.	Innovation.....	26
2.6.	Industry Analysis.....	28
2.7.	Business Model.....	31
2.7.1.	Definition of Business Model.....	31
2.7.2.	Nine Basic Building Blocks.....	33
2.8.	Ansoff Matrix: Strategies for Diversification.....	36
	CHAPTER III RESEARCH METHOD.....	39
3.1.	Research Design.....	39
3.2.	Collection Data Methodology.....	39
3.3.	Research Instrument.....	40
3.4.	Data Analysis Methodology.....	41
3.5.	Case Profile.....	44

CHAPTER IV RESEARCH RESULTS AND DISCUSSION.....	45
4.1. Needs and Compliance Viability Analysis	45
4.1.1. Waste Management Policy and Strategy in Jakarta.....	45
4.1.2. Identification of Existing Condition of Waste Management in Perumda Pasar Jaya and PD Dharma Jaya.....	49
4.1.3. Bioconversion through BSF Larvae as an Option.....	53
4.2. Technical Viability Analysis	55
4.2.1. Identification of Existing Waste Generation and Composition	55
4.2.2. Identification of Existing Reduction and Recycling Program from the Waste Sources.....	59
4.2.3. Identification of Existing Waste Handling and Its Facilities...	64
4.2.4. Possibility to Realize Bioconversion Business Concept through BSF Larvae	67
4.2.5. Manufacturing Process and Its Products.....	71
4.3. Business Model Viability Analysis.....	74
4.3.1. Managing Innovation of BSF Larvae Bioconversion.....	74
4.3.2. Business Model Canvassing of BSF Larvae Bioconversion....	75
4.4. Market Viability Analysis	85
4.4.1. Industry Rivalry (Competition from Rival Sellers).....	85
4.4.2. Entry (Competition from Potential New Entrants to the Industry.....	91
4.4.3. Substitutes and Compliments (Competition from Producers of Substitute Products.....	92
4.4.4. Power of Input Suppliers.....	94

4.4.5. Power of Buyers or Customers.....	95
4.5. Management Model Viability Analysis.....	97
4.6. Economic and Commercial Viability Analysis.....	100
4.7. Environment and Social Viability Analysis.....	104
4.8. Exit Strategy Viability Analysis.....	105
CHAPTER V CONCLUSIONS AND SUGGESTIONS.....	107
5.1. Conclusions.....	107
5.2. Implication.....	109
5.3. Limitation.....	109
5.4. Recommendations.....	110
Bibliography.....	111

LIST OF TABLES

Table 2.1. Differences amongst combustion, pyrolysis, and gasification.....	15
Table 2.2. Insect bioconverters and their corresponding bioconversion outputs.....	19
Table 2.3. BSF larvae’s taxonomic classification.....	19
Table 2.4. Business Model Definitions.....	31
Table 4.1. Monthly waste production volume of Perumda Pasar Jaya.....	51
Table 4.2. Plan of Business Places Addition during Period of 2018 – 2022...	51
Table 4.3. Waste volume and organic waste composition derived from 38 pilot project markets.....	56
Table 4.4. Amount of waste resulted from live cattle slaughter at RPH Cakung in 2019.....	57
Table 4.5. Total composition of waste of a slaughterhouse.....	57
Table 4.6. PD Dharma Jaya’s current production capacity of solid waste processing.....	61
Table 4.7. PD Dharma Jaya’s proposed production capacity of solid waste processing.....	62
Table 4.8. Tabulation of evaluation results of BTIG Project.....	65
Table 4.9. BSF treatment facilities.....	73
Table 4.10. Chemical Composition of the BSF Larvae.....	78
Table 4.11. Main players of animal feed in Indonesia.....	88
Table 4.12. Comparison between necessity and availability of fertilizer.....	89
Table 4.13. Allocation of subsidized fertilizer for 2019.....	89
Table 4.14. Production capacity of 5 (five) BUMNs.....	90

Table 4.15. Volume of imports of fishery product by major commodity of 2011.....	93
Table 4.16. Risk assessment of the bioconversion business.....	99
Table 4.17. Initial investment of the Proposed Bioconversion Company.....	101
Table 4.18. Projected net revenue of the Proposed Bioconversion Company	102
Table 4.19. Projected profit and loss of the Proposed Bioconversion Company.....	102
Table 4.20. Financial analysis result with moderate scenario.....	103

LIST OF FIGURES

Figure 2.1. Levels of air (oxygen) present during combustion, pyrolysis, and gasification processes for municipal solid waste.....	16
Figure 2.2. Morphology of larvae, pupae and adult flies.....	20
Figure 2.3. Graphical representation of the concept of fly larvae composting	22
Figure 2.4. The interconnection between feasibility study and business plan	26
Figure 2.5. Dimensions of Innovation, exploring innovation space.....	28
Figure 2.6. Porter’s Five Forces Framework.....	31
Figure 2.7. Business Model Canvas.....	32
Figure 2.8. Ansoff Matrix: Strategies for Diversification.....	38
Figure 3.1. Aerial photo of the pilot project location for BSF larvae bioconversion at Cakung	44
Figure 4.1. Waste production volume graph of Perumda Pasar Jaya.....	50
Figure 4.2. Average waste composition in all markets managed by Perumda Pasar Jaya.....	54
Figure 4.3. Mountains of solid organic waste at PD Dharma Jaya’s business unit at Cakung.....	62
Figure 4.4. Mockups of BTIG Project.....	63
Figure 4.5. The different units of a BSF treatment system.....	72
Figure 4.6. PD Dharma Jaya’s web store which has prepared sales infrastructure for animal feed and organic fertilizer products....	81
Figure 4.7. Cost of poultry establishment during the year of 2018.....	86
Figure 4.8. Growth of feed group consumption, year 2013 – 1 st Quarter 2018 (KG/Cap/Year).....	87

Figure 4.9. Growth of animal feed consumption, year 2013 – 1st Quarter

2018 (KG/Cap/Year)..... 87
