

CONTENTS

ACKNOWLEDGEMENT	v
ABSTRACT.....	vi
CONTENTS.....	viii
LIST OF TABLES.....	x
LIST OF FIGURES	xi
CHAPTER 1 INTRODUCTION	1
1.1. INTRODUCTION	1
1.2. OBJECTIVES.....	2
CHAPTER 2 LITERATURE REVIEW	3
2.1. Quality changes and spoilage in shrimp.....	3
2.1.1. Microbial spoilage.....	3
2.1.2. Chemical deterioration.....	3
2.1.3. Enzymatic deterioration	4
2.2. Plant extract	5
2.2.1. Preparation and extraction	6
2.2.2. Antioxidant properties.....	6
2.2.3. Antimicrobial properties	7
2.2.4. Polyphenoloxidase (PPO) inhibitory property	8
2.3. Application of plant extract for shrimp preservation	8
CHAPTER 3 MATERIALS AND METHODS.....	10
3.1. Materials	10
3.1.1. Sample.....	10
3.1.2. Chemicals.....	10
3.1.3. Equipments	10
3.2. Methods.....	10
3.2.1. Guava leaves preparation	12
3.2.2. Shrimp collection	12
3.2.3. Part I: Production of ethanolic guava leaf extract without and with chlorophyll removal	12
3.2.4. Part II: Characterization of ethanolic guava leaf extract without and with chlorophyll removal	13

THE USE OF DECHLORPHYLLIZED GUAVA LEAF EXTRACT FOR PREVENTION OF MELANOSIS AND MAINTENANCE OF QUALITY FOR PACIFIC WHITE SHRIMP DURING REFRIGERATED STORAGE

TAN STEFFI LOUISA D, Prof. Dr. Ir. Sri Raharjo, M. Sc.; Prof. Soottawat Benjakul, Ph. D.

Universitas Gadjah Mada, 2020 | Diunduh dari <http://etd.repository.ugm.ac.id/>

3.2.5.	Part III: Impact of the selected ethanolic guava leaf extract in Pacific white shrimp during 12 days of refrigerated storage	16
3.2.6.	Statistical analysis	18
CHAPTER 4 RESULT AND DISCUSSION		19
4.1.	Total phenolic content (TPC) and extraction yield of ethanolic guava leaf extract without and with chlorophyll removal	19
4.2.	Chlorophyll content and color of ethanolic guava leaf extract without and with chlorophyll removal	22
4.3.	Antioxidant activities of ethanolic guava leaf extract without and with chlorophyll removal	25
4.4.	Antimicrobial activities of ethanolic guava leaf extract without and with chlorophyll removal	27
4.5.	Copper chelating activity and PPO inhibitory activity of ethanolic guava leaf extract without and with chlorophyll removal	29
4.6.	Microbiological quality of Pacific white shrimps treated without and with GLE-S at different concentrations during refrigerated storage	32
4.7.	Chemical quality of Pacific white shrimps treated without and with GLE-S at different concentrations during refrigerated storage	35
4.8.	Melanosis of Pacific white shrimps treated without and with GLE-S at different concentrations during refrigerated storage	38
4.9.	Acceptability of steam-cooked Pacific white shrimp without and with GLE-S before and after 12 days of refrigerated storage	40
CHAPTER 5 CONCLUSION AND SUGGESTION		42
