### **EVALUASI KINERJA TEMPAT PELELANGAN IKAN NGEPET DESA SRIGADING KECAMATAN SANDEN KABUPATEN BANTUL**

Penelitian ini bertujuan untuk memberikan gambaran tentang TPI Ngepet dan aktivitasnya, dan mengevaluasi kinerja TPI Ngepet. Pengumpulan data dilakukan pada bulan Desember 2019 sampai Maret 2020 di Tempat Pelelangan Ikan Ngepet, Desa Srigading, Kecamatan Sanden, Kabupaten Bantul dengan menggunakan metode sensus. Seluruh nelayan pemilik kapal (9 orang), 5 orang pengurus TPI-nelayan pemilik kapal, 2 orang pengurus TPI, dan 2 orang tengkulak menjadi responden. Data primer dikumpulkan melalui observasi, wawancara, dan dokumentasi, sedangkan data sekunder dengan penelusuran dokumen. Data yang terkumpul dianalisis dengan metode deskriptif. Hasil penelitian menunjukkan bahwa TPI Ngepet merupakan sarana yang dibuat oleh Dinas Pertanian Pangan Kelautan Perikanan Kabupaten Bantul untuk memudahkan nelayan dalam kegiatan perikanan. Hasil evaluasi kinerja TPI Ngepet menunjukkan bahwa seluruh responden mengatakan di TPI belum terjadi pelelangan, belum meningkatkan pendapatan asli daerah (PAD), dan belum melakukan pemeriksaan ikan yang akan dijual. Di sisi lain, seluruh responden mengatakan bahwa TPI sudah memungut retribusi dan menginformasikan harga ikan yang akan dijual. Dalam hal peningkatan pendapatan dan taraf hidup nelayan, 55,6% responden berpendapat bahwa TPI belum mencapai tujuan tersebut.

Kata kunci: evaluasi, kinerja, tempat pelelangan ikan, Kabupaten Bantul.

### *Abstract*

#### *EVALUATION OF NGEPET FISH AUCTION HALL PERFORMANCE IN BANTUL REGENCY*

*This research aims to describe about activities and evaluation of the performance of Ngepet fish auction hall (TPI Ngepet), where located in Bantul Regency. Field data were collected from December 2019-March 2020. Primary data were obtained from interviewing 9 fishermen, 5 staff of TPI Ngepet -fishermen, 2 staff of TPI Ngepet and 2 suppliers. Primary data were collected with observation, interview and documentation. Secondary data were obtained from TPI Ngepet and village office documents. The data were analyzed with descriptive statistics. Result of this research showed that Ngepet FAH was built by Dinas Pertanian Pangan Kelautan Perikanan Bantul Regency to facilitated fishermen activities. Evaluation of the performance of TPI Ngepet showed that TPI Ngepet has never conducted auctions, has not increased revenue for Bantul Recency (pendapatan asli daerah/PAD) and has not checked before the fish were sold to fish sellers. On the other hand, TPI Ngepet has collected retribution for PAD and informed fish price to the fish sellers. In term of increasing income and standard living of fishermen, 55.6% respondents thought that TPI had not achieved their goals.*
