

## TABLE OF CONTENT

Table of content.....	v
List of figures.....	viii
List of tables.....	x
Abstract.....	xi
Chapter I Introduction.....	1
1.1 Research Background.....	1
1.2 Research problem.....	3
1.3 Research Scope.....	3
1.4 Research Objective.....	3
1.5 Research Advantage.....	4
1.6 Systematic Writing.....	4
Chapter II Literature review.....	5
Chapter III Basic Theory.....	14
3.1 Mac Spoofing.....	14
3.2 Mobile Hotspot.....	15
3.2.1 Standard Wireless.....	16
3.3 Decision Tree.....	17
3.4 Random Forest algorithm.....	21
3.5 Feature Importance.....	23
3.6 IP Filtering.....	23
Chapter IV Research Methodology.....	24
4.1 General Description Of research.....	24
4.1.1 Network Architecture.....	24
4.1.2 Profiling and Detection Based on Random Forest.....	25
4.1.3 Spoofing the network.....	27
4.2 Tools and materials.....	29
4.3 Dataset.....	29
4.4 Research phase.....	30
4.5 Stages of research.....	30
Chapter V Implementation.....	32
5.1 Gathering of RSS data in the field.....	32
5.1.1 The field map.....	32
5.1.2 Connect to the MIFI network.....	34
5.1.3 Probe the devices.....	36
5.1.4 Turn the admin into monitor mode.....	36
5.1.5 Extracting the data.....	37
5.1.6 RSS Result.....	38
5.1.7 Filter the PCAPNG into 2 devices.....	39

5.2	Training data with random forest in python library.....	39
5.2.1	Convert PCAPNG file into csv file for processing in python library.....	40
5.2.2	Csv Result.....	41
5.2.3	Automation data gathering.....	41
5.2.4	Split the RSS into two features.....	43
5.2.5	Combined into one CSV file.....	44
5.2.6	Combined all of the RSS in one location.....	45
5.2.7	Serialize the data and delete the (-) and (dBm) and change the (;) into (,).....	46
5.2.8	Automation data preprocessing.....	47
5.2.9	Train with random forest in python.....	54
5.3	Testing the Train model with the attacker device.....	57
5.3.1	Capture the device RSS with the real device.....	58
5.3.2	Capture the device RSS without the real device.....	58
5.5	Implementing using python.....	58
5.5.1	Use Feature Importance.....	59
5.5.1.1	Using dataset real .....	59
5.5.1.2	Using dataset fake.....	60
5.6	Notification.....	61
5.7	IP Filter.....	62
5.7.1	IP filter automation.....	64
Chapter VI	Results and Discussions.....	67
6.1	Detection method.....	67
6.1.1	The result of the accuracy using random forest modelling(Vanilla).....	67
6.1.1.1	Result of dataset real accuracy.....	68
6.1.1.2	Result of dataset fake with the real device accuracy.....	69
6.1.1.3	Result of dataset fake without the real device accuracy.....	71
6.1.2	The result of the ranking using random forest modelling with added feature importance(Vanilla+).....	73
6.1.2.1	Result of the dataset real feature importance.....	73
6.1.2.2	Result of the dataset fake feature importance.....	75
6.2	Notification result.....	78
6.3	IP filter result.....	80
Chapter VII	Conclusion.....	82
7.1	Future works.....	82
References.....		83
Appendix A.....		88
Appendix B.....		89

**DETECTION OF MAC SPOOFING IN MOBILE HOTSPOT USING RANDOM FOREST**
