UPAYA PENCEGAHAN DALAM PENANGGULANGAN KEJAHATAN KLITHIH YANG DILAKUKAN ANAK

Oleh: Azshyva Aura Yafentri¹, Dani Krisnawati²

Penelitian hukum ini bertujuan untuk mengetahui upaya pencegahan dalam penanggulangan kejahatan klithih yang dilakukan anak oleh instansi pendidikan, instansi pemerintahan, dan instansi kepolisian di Kabupaten Sleman serta untuk mengetahui penyebab tetap terjadinya kejahatan tersebut di Kabupaten Sleman meskipun sudah dilakukan upaya pencegahan oleh instansi terkait.

Penelitian ini adalah penelitian normatif-empiris dengan sifat deskriptif. Jenis data yang digunakan adalah data primer yang diperoleh melalui wawancara dengan beberapa responden dan narasumber serta data sekunder yang diperoleh melalui studi pustaka. Data yang diperoleh kemudian dianalisis secara kualitatif.

Berdasarkan hasil penelitian, dapat disimpulkan bahwa: 3 (tiga) institusi tersebut telah melakukan berbagai upaya pencegahan kejahatan klithih yang dilakukan anak. Hal yang perlu diperhatikan adalah fakta mengenai kejahatan klithih yang hingga saat ini masih terjadi. Terdapat banyak faktor yang menyebabkan kejahatan klithih masih terjadi. Upaya pencegahan yang selama ini dilakukan masih kurang menasar pada daerah yang rawan, hanya melaksanakan yang terdapat pada SOP saja tanpa melakukan inovasi upaya pencegahan secara berkala, upaya pencegahan belum bersifat komprehensif, dan kurangnya sinergitas antar instansi. Adapun faktor masih terjadinya kejahatan klithih yang melekat pada anak yaitu: melemahnya fungsi keluarga, lingkungan pertemanan yang buruk disertai kemajuan teknologi tanpa disertai bimbingan, dan anak merasa dikucilkan di sekolah.

Kata Kunci: upaya pencegahan, klithih yang dilakukan anak

ABSTRACT

THE PREVENTIVE MEASURES IN OVERCOMING THE CRIMINAL ACT OF KLITHIH PERFORMED BY CHILDREN

Author: Azshyva Aura Yafentri³, Dani Krisnawati⁴

This legal research has objectives to discover the preventive measures in overcoming the criminal act of klithih performed by children, conducted by educational institution, government institution, and police enforcement in the Regency of Sleman, also to discover the cause of such crimes in the Regency of Sleman aside from the performed preventive measures done by such institutions.

This research is categorized as an empirical-normative research with descriptive type. The type of data used in this research is primary data, the data is gathered by interviews with several informants and respondents as well as secondary data obtained from literature studies. The gathered data is then analyzed using qualitative method.

Based on the conducted research, it can be concluded that 3 (three) institutions have made several efforts to prevent the criminal act of klithih performed by children. The thing that needs to be highlighted is that the criminal act of klithih still happened to this present. There are so many factors on why the criminal act of klithih still happened to this present. The conducted preventive measures have not been conducted in disturbed area, were only following what's written on SOP without the need to innovate the preventive measures periodically, have not been done comprehensively, and the lack of synergy between institutions. There are other factors of why klithih still happened to this present: weakening of family's role, bad environment along with the usage of technology without control, and stigmatization towards member of a gang.

Keywords: prevention, klithih performed by children
