Critical role of Bruton's Tyrosine Kinase signaling in Neuroblastoma cancer stem cells: in vitro and in silico gene-target prediction
NARPATI WESA PIKATAN, Prof.dr. Sofia Mubarika Haryana, M.Med.Sc., PhD ; Prof.Dr.dr. Soetaryo, Sp.A(K); Prof. I
Universitas Gadjah Mada, 2020 | Diunduh dari <http://etd.repository.ugm.ac.id/>

Table of Content

Title page.....	i
Approval page	ii
Table of content.....	iv
Table of figures.....	vi
Table of tables	vii
Abstract.....	viii

Chapter I. Introduction

1.1. Research Background	1
1.2. Research Problems	7
1.3. Research objectives.....	7
1.4. Research benefits	8
1.5. Research Originality	8

Chapter II. Literature review

2.1 Literature review	
2.1.1 Neuroblastoma	10
2.1.2 Bruton's tyrosine kinase	16
2.1.3 Cancer stem cells	17
2.1.4 MicroRNA	21
2.1.5 MicroRNA in Neuroblastoma	24
2.1.6 MicroRNA let-7i	25
2.2 Theoretical Framework	26
2.3 Conceptual Framework	27

2.4 Hypothesis.....	27
---------------------	----

Chapter III. Research Methodology

3.1 Type of Study	28
3.2 Data Sampling.....	28
3.2.1 Population/Study subject	
3.2.2 Location of the study	28
3.2.3 Study variable and operational definition	29
3.2.4 Measurement method.....	32
3.3 Data Analysis	36
3.4 Ethical clearance	36

Chapter IV. Results and Discussions

4.1 Results.....	38
4.1.1 BTK is overexpressed and associated with worse prognosis in patients with neuroblastoma	38
4.1.2 Molecular Inhibition of BTK expression significantly suppress the metastatic and stem cell-like phenotype of neuroblastoma cells	42
4.1.3 Pharmacological suppression of BTK expression is associated with decreased migration and invasive potential of neuroblastoma cells	45
4.1.4 Suppression of BTK expression is associated with decreased neurosphere formation by dysregulation of STAT3 and CSC-related signaling in neuroblastoma cells	48
4.1.5 Selective inhibition of BTK synergistically enhance the anticancer effect of cisplatin in neuroblastoma cells	51
4.1.6 miRNA hsa-let-7i-p is a regulator of BTK expression and has a potential biomarker in predicting neuroblastoma tumor outcome	53
4.2 Discussions	54

Chapter V. Conclusions

Conclusions.....	60
References.....	61
Supplementary data.....	70
