AUTHOR'S DECLARATION OF ORIGINALITY	iii
ACKNOWLEDMENT	iv
TABLE OF CONTENT	v
LIST OF TABLES	viii
LIST OF FIGURES	ix
LIST OF APPENDIXES	x
ABSTRACT	xi
INTISARI	xii
CHAPTER I. INTRODUCTION.....	1
1.1 Background	1
1.2 Objectives.....	3
1.2.1 General objective	3
1.2.2 Specific objectives	4
CHAPTER II. LITERATURE REVIEW	5
2.1 Human Immune system.....	5
2.2 Immunoglobulin.....	8
2.2.1 Immunoglobulin A.....	9
2.2.2 Immunoglobulin G.....	10
2.2.3 Immunoglobulin M.....	11
2.3 Kampung chicken egg.....	11
2.5 Modulation of Immune Function by Foods	15
2.6 Immunomodulating properties of hen egg	17
2.6 Partial purification of egg yolk	20
2.7 Theoretical Framework	21
2.8 Conceptual Framework	23
2.9 Hypothesis.....	24

CHAPTER III. MATERIALS AND METHODS	25
3.1 Materials.....	25
3.1.1 Sample	25
3.1.2 Chemicals.....	25
3.1.3 Cells	26
3.1.4 Equipment.....	26
3.2. Research Location and Period.....	26
3.3 Research stages	26
3.3.1 Physical and chemical quality analysis of egg.....	27
3.3.2 Sample extraction	28
3.3.3 Total Protein analysis	29
3.3.4 Cell culture.....	29
3.3.5 Immunoglobulin Production assay	30
3.3.6 Cell viability assay.....	32
3.3.7 Gene expression assay	32
3.3.8 Immunoglobulin production on mouse splenocytes <i>in vitro</i>	33
3.3.9 Cell viability assay for mouse splenocytes <i>in vitro</i>	34
3.3.10 Partial purification of egg yolk water extract using ammonium sulfate ((NH ₄) ₂ SO ₄)	34
3.4 Statistical analysis	35
3.5. Experimental design.....	35
CHAPTER IV. RESULTS AND DISCUSSION	37
4.1 Analysis of Physical and Chemical Characteristics of Native Chicken Eggs and Commercial Chicken Eggs	37
4.1.1. Quality of Exterior and Interior Native Chicken Eggs and Commercial Chicken Eggs	37
4.1.2 Chemical Characteristics of Kampung Chicken Eggs and Commercial Chicken Eggs	41
4.2. Effect of Kampung egg on IgM production by HB4C5 cells	42
4.2.1 Effect of Kampung egg yolk on IgM production cell viability on HB4C5 cells	42

4.2.2 Effect of Kampung egg white on IgM production and cell viability on HB4C5 cells.....	45
4.3. Gene transcription of egg yolk and egg white (RT-PCR).....	46
4.3.1 Effect of KEYWE on gene transcription of IgM production.....	46
4.3.2 Effect of KEWWE on gene transcription of IgM.....	47
4.4. Effect of Kampung egg on mouse splenocyte.....	48
4.4.1 Effect of KEYWE on mouse splenocytes.....	49
4.4.2 Effect of KEWWE on mouse splenocytes.....	52
4.5 Partial purification of active substance contained in egg yolk.....	54
CHAPTER V. CONCLUSION AND RECOMMENDATION.....	58
5.1 Conclusion	58
5.2 Recommendation.....	59
REFERENCES.....	60
APPENDIX	67
