

## TABLE OF CONTENTS

TITLE PAGE.....	i
SUBMISSION APPROVAL.....	ii
STATEMENT PAGE .....	iii
PREFACE .....	iv
TABLE OF CONTENTS.....	viii
LIST OF TABLES.....	xii
LIST OF FIGURES .....	xiii
LIST OF ANNEXES .....	xv
LIST OF ABBREVIATIONS .....	xvi
INTISARI.....	xvii
ABSTRACT .....	xviii
CHAPTER I .....	1
INTRODUCTION .....	1
A. Background .....	1
B. Research Questions.....	8
C. Authenticity and the Novelty of the Study.....	9
D. Urgency of Research .....	13
E. Research Objectives.....	14
F. Impacts of the Research .....	15
CHAPTER II.....	17
LITERATURE.....	17

A. Literature Study.....	17
1. Solid dispersion.....	17
2. Particle or molecular arrangement in solid dispersion.....	19
3. Preparation method in solid dispersions.....	21
4. Solid dispersions carriers.....	29
a. Mannitol.....	29
b. Polyvinylpyrrolidone (PVP).....	31
c. Inulins.....	32
5. Curcumin, the chemistry.....	34
6. Curcumin activities.....	36
7. Bioavailability of Curcumin.....	37
B. Theoretical Frame.....	41
C. Hypothesis.....	44
CHAPTER III.....	45
RESEARCH METHODS.....	45
A. Materials.....	45
1. Preparation of solid dispersions of curcumin.....	45
2. Preparation of solid dispersions of curcuminoids.....	45
3. Animal study.....	46
B. Equipments.....	46
1. Preparation of solid dispersions of curcumin.....	46
2. Preparation of solid dispersions of curcuminoids.....	47
3. Animal study.....	48
C. Study Design.....	48

D. Experimental Study .....	50
1. Solid dispersions of curcumin.....	54
a. Preparation of solid dispersions .....	54
b. Preparation of physical mixture formulation.....	55
c. Drug load (curcumin content) determination .....	55
d. Solid-State Characterization.....	56
e. Tableting.....	57
f. Dissolution experiment .....	58
2. Solid dispersions of curcuminoids .....	59
a. Preparation of a PVP K30 based solid dispersion .....	59
b. Preparation of physical mixture formulation.....	60
c. Drug load measurement.....	61
d. Solid-state characterization .....	61
e. Dissolution study .....	62
f. Storage stability of <i>C. longa</i> solid dispersion powder.....	63
3. Method Development and Validation .....	63
a. TLC method development and validation .....	63
b. HPLC method development and validation .....	68
4. <i>In vivo</i> study of solid dispersions formulation.....	77
a. Minitablets preparation.....	77
b. Animal preparation .....	78
c. Sampling and plasma preparation.....	79
d. Plasma sample extraction .....	80
E. Variables.....	80
1. Solid dispersions containing pure curcumin .....	80
2. Solid dispersions containing curcuminoids .....	80
3. Animal study .....	81
F. Limitations of Study.....	81

G. Operational Definitions .....	81
H. Data analysis .....	82
CHAPTER IV.....	84
RESULTS AND DISCUSSION.....	84
1. Method development and validation .....	84
a. Curcumin determination in the dissolution study by TLC .....	84
b. Curcumin determination by an HPLC method.....	100
2. Solid dispersion of curcumin or curcuminoids .....	114
a. Characterization of unprocessed “active ingredient” .....	115
b. Selection of dissolution media.....	117
c. Solid dispersions of curcumin .....	119
d. Solid dispersion of curcuminoids .....	135
3. <i>In vivo</i> absorption study.....	147
CHAPTER V .....	162
GENERAL DISCUSSION.....	162
CHAPTER VI.....	169
CONCLUSIONS AND SUGGESTIONS.....	169
A. CONCLUSIONS .....	169
B. SUGGESTIONS.....	171
REFERENCES .....	173
ANNEXES .....	187
APPROVAL OF DISSERTATION SUMMARY .....	224
PERSETUJUAN RINGKASAN DISERTASI.....	226
APPROVAL FOR PUBLICATION .....	227
APPROVAL FOR PUBLICATION.....	228
