Abstract	iv
Acknowledgements	v
Table of Contents	vi
List of Tables.....	viii
List of Figure.....	ix
Abbreviations	xi
1. Introduction.....	1
1.1. Background.....	1
1.2. Research Problem	3
1.3. Research Objectives.....	4
1.4. Research Questions	4
1.5. Benefit of the research	6
1.6. Limitations of the research.....	6
1.7. Thesis Structure	6
1.8. Conceptual Framework	8
1.9. Literature Review.....	10
2. Case Study Area : Karanganyar	42
2.1. General Information of Karanganyar.....	42
2.2. Infrastructure Irrigation in Karanganyar	49
3. Research Methodology	52
3.1. Research Approach	52
3.2. Sampling Technique	53
3.3. Participants.....	53
3.4. Data Collection and Analysis.....	56
3.5. Research Design.....	58
4. Analysis of Utilization Infrastructure Irrigation in Study Area	59
4.1. Institutional Infrastructure Irrigation	59
4.2. The system developed of Infrastructure Irrigation.....	62
4.3. Policy of Infrastructure Irrigation	64

4.4. Delivery Mechanisms And Regulations Support.....	66
5. Analysis of Base Local Community Participation in Study Area.....	70
5.1. Community Access to Irrigation Infrastructure	70
5.2. Participation and Community Adaptation	72
6. Conclusion and Recommendation	78
6.1. Conclusion	78
6.2. Recommendation	83
Bibliography.....	84
Appendix	88

List of Tables

Table 1. Research question and research objectives	5
Table 2. Classification of the type of terrain for irrigation	20
Table 3. Comparison of previous research with research that has been done..	41
Table 4. Number family and population by sex and district in Karanganyar Regency 2010.....	44
Table 5. Composition of Population Based Livelihood	46
Table 6. Area by district, wet land and non wet land in Karanganyar Regency.....	50
Table 7. The Area wer based irrigation by district in Karanganyar Regency..	51
Table 8. List of Stakeholder	54
Table 9. List of Data collection technique and sources of evidence	57
Table 10. Regional Irrigation Authority in Karanganyar.....	60

List of Figure

Figure 1. Outline of the research.....	7
Figure 2 : Conceptual Framework Utilization of Infrastructure Irrigation Based Local Community Participation	9
Figure 3. Network / Simple Irrigation Area	17
Figure 4. Network / Half Simple Irrigation Area	18
Figure 5. Network/Technical Irrigation Area.....	18
Figure 6. Schematic Layout Tertiary plots in Rough Terrain	21
Figure 7. Schematic Layout Tertiary plots in Medan Somewhat Steep.....	21
Figure 8. Schematic Layout Tertiary Plots in Region Corrugated.....	22
Figure 9. Schematic Layout Plots in Region Flat Tertiary marshy.....	22
Figure 10. Irrigation System in general.....	24
Figure 11. Example of Irrigation Scheme	24
Figure 12. Institutional Arrangements Concept	25
Figure 13. Delivery Mechanism Concepts	26
Figure 14. Infrastructure Policy	26
Figure 15. Relationship between Community development and utilization of Infrastructure.....	31
Figure 16 Infrastructure as a product	33
Figure 17. Infrastructure as Agent of change.....	35
Figure 18. Infrastructure as support facilities	37
Figure 19. Infrastructure as a critical discourse	38
Figure 20. Map of Administrasi Karanganyar	42
Figure 21. Map of Type Soil in Karanganyar	48
Figure 22. Map of Land Use in Karanganyar	49
Figure 23. Percentage of Land Rice According to Irrigation.....	50
Figure 24. Flowchart of <i>Research Design</i>	58
Figure 25. Structure One water user associations (P3A) in Karanganyar.....	62
Figure 26. Technical Aspects and Institutional Linkages in Irrigation Systems	64

Figure 27. Weir / Dam Kedung Nunut in Sub District Matesih.....	67
