

TABLE OF CONTENTS

TITLE PAGE	i
INSCRIPTION	iii
PREFACE	iv
STATEMENT OF THE ORIGINAL THESIS	vi
TABLE OF CONTENTS	vii
TABLE OF FIGURE	x
CONTENTS OF TABLE	xi
ABSTRACT	xii
CHAPTER I. INTRODUCTION	1
A. Research Background	1
B. Problem Identification/Formulation	5
C. Research Objectives	5
D. Benefit of the Research	6
E. Ratification	7
CHAPTER II. LITERATURE	9
A. Literature Review	9
1. Motor vehicle	9
2. Driver	10
3. Behavior	14
4. Knowledge	16
5. Insomnia	21
B. Theoretical Basis	22
C. Framework Concepts	32
D. Hypothesis	33
CHAPTER III. RESEARCH METHODS	34
A. Research Design	34
B. Research Location	34
C. Research Subjects	34
D. Inclusion and Exclusion Criteria	35

1.	Inclusion criteria	35
2.	Exclusion criteria	35
E.	Identification of Research Variables	35
F.	Definition of Operational Variables	36
G.	Research Instruments	38
1.	DRUID Task 7.4, version 2.2007.03.07	38
2.	Validity instrument and reliability test.....	40
H.	The Course of Study.....	41
I.	Data Analysis	42
1.	Bivariate analysis	42
2.	Multivariate analysis	42
CHAPTER IV. RESULT AND DISCUSSION		43
A.	Result of Study	43
1.	Socio-demographic chatacteristic.....	43
2.	Descriptive characteristic of patient’s medicines and experienced side effect	43
3.	Descriptive characteristic of patient’s knowledge, attitude, and reported behavior	44
3.1.	Knowledge regarding the risk of having a road accident.	46
3.2.	Attitude regarding consequences of driving under the influence of impairing medicines.	47
3.3.	Attitude regarding use of medicines and driving.....	47
3.4.	Reported behavior.....	48
4.	Relationship between socio-demographic characterisric, use of motorised vehicles, medicines, experienced side effect, knowledge, attitude, reported behavior and change behavior.	50
B.	Discussion of Study.....	56
1.	Knowledge	57
2.	Reported behavior.....	58
3.	Study limitations and study strengths.	59
3.1.	Study limitations.	59
3.2.	Study strengths.	59

CHAPTER V CONCLUSIONS AND RECOMMENDATIONS	60
A. Conclusions of Study	60
B. Recommendations	61
BIBLIOGRAPHY	62
ATTACHMENT	65
1. Questionnaire for Patients	65
2. <i>Kuesioner untuk Pasien</i>	82
3. <i>Lembar Penjelasan kepada Calon Subjek</i>	98
4. <i>Persetujuan Keikutsertaan Dalam Penelitian</i>	100
5. <i>Lembar Penjelasan Kepada Calon Subjek</i>	101
6. ETHICS COMMITTE APPROVAL	102
7. APPROVAL OF RESEARCH.....	103
8. VALIDITY AND RELIABILITY TEST INSTRUMENT	108
9. STATEMENTS ON CHANGES IN REPORTED BEHAVIOR, CONCERNING DRIVING ABILITY AND USE OF DRIVING IMPAIRING MEDICINES	114
10. CHARACTERISTIC OF RESPONDENTS	116
11. PREDICTOR FOR CHANGE BEHAVIOR: MULTIPLE LINEAR REGRESSION ANALYSIS	126
12. CHANGE IN DRIVING FREQUENCY	127
13. CHANGE IN THE USE OF DRIVING-IMPAIRING MEDICINES	129
SUMMARY	132
PUBLICATION MANUSCRIPT	134

TABLE OF FIGURE

Figure 1. Representing a Definition of Knowledge	4
Figure 2. Teory of Planned Behavior	16
Figure 3. Framework Concepts	32

CONTENTS OF TABLE

Table 1. Rating for Acute Effects	24
Table 2. Pharmacokinetics of Benzodiazepine Reseptor Agonists	30
Table 3. The Topic of DRUID	39
Table 4. Modifications of questionnaire DRUID.....	39
Table 5. Socio-demographic, Medicines, Knowledge, Attitude, and Behavior Characteristic of respondents.....	45
Table 6. Knowledge about the risk of having a road accident when using medicines for insomnia	46
Table 7. Attitude regarding consequences of driving under the influence of impairing medicines.....	47
Table 8. Attitude regarding use of medicines and driving.	48
Table 9. Statements on changes in reported behavior, concerning driving ability and use of driving impairing medicines.....	49
Table 10. Relationship socio-demographic characterisric, use of motorised vehicles, medicines, experienced side effect, knowledge, attitude, and reported behavior with change behavior.....	51
Table 11. Predictor for change behavior: multiple linear regression analysis.	54
Table 12. Correlation independent variable with change in driving frequency and in use of driving-impairing medicines.	55
