Cover Page.....	i
Ratification Page.....	ii
Authenticity Statement.....	iii
Acknowledgement Page.....	iv
Table of Contents.....	vi
List of Tables.....	viii
List of Figures.....	ix
Abbreviations.....	x
Abstract.....	xi

Chapter I. INTRODUCTION

1.1 Background.....	1
1.2 Problem Formulation.....	4
1.3 Research Authenticity.....	4
1.4 Research Question.....	7
1.5 Objectives.....	7
1.6 Research Benefit.....	7

Chapter II. Literature Review

Literature Review.....	8
2.1 Metabolic Syndrome Definition.....	8
2.2 Epidemiology.....	8
2.3 Pathogenesis and Pathophysiology.....	12
2.4 Metabolic Syndrome Diagnostic Criteria Based on IDF.....	15
2.5 Metabolic Syndrome Diagnostic Criteria Based on WHO.....	16
2.6 Metabolic Syndrome Diagnostic Criteria Based on NCEP-ATP III.....	17
2.7 Difference in Metabolic Syndrome Prevalence Based on Different Criteria.....	18
2.8 Components of Metabolic Syndrome.....	20
2.8.1 Central Obesity.....	20
2.8.2 Insulin Resistance.....	21
2.8.3 Dyslipidemia.....	23
2.8.4 Hypertension.....	26
2.8.5 Pro-Inflammatory State.....	29
2.8.6 Age.....	30
2.8.7 Sex.....	31
2.8.8 Ethnicity.....	32
2.8.9 Geographic Factor.....	33
Theoretical Framework.....	35
Conceptual Framework.....	36

Chapter III. Method

3.1 Research Design.....	37
3.2 Place and Duration of the Study.....	37
3.3 Sample Population.....	38
3.4 Subject of Research.....	38
3.5 Sample Size.....	39
3.6 Material and Measurement.....	39
3.7 Data Collection.....	40
3.8 Variable Identification.....	40
3.9 Operational Definition of Variables.....	41
3.10 Ethical Consideration.....	43
3.11 Statistical Analysis.....	43

Chapter VI. Results & Discussion

4.1 Results.....	44
4.1.1 Further Selection of Study Population.....	44
4.1.2 Characteristics of demographic factors, MetS, and it's components of the study population.....	45
4.1.3 Prevalence of MetS among each Individual Component.....	47
4.1.4 Prevalence of MetS based on Demographic Factor.....	51
4.1.5 Comparison of Demographic Factors towards MetS Components.....	52
4.1.5.1 Sex.....	53
4.1.5.2 Age.....	53
4.1.5.3 Ethnicity.....	54
4.1.5.4 Geographic Factor.....	54
4.2 Discussion.....	55

Chapter V. Conclusion & Suggestions

5.1 Conclusion.....	63
5.2 Suggestion.....	63

Chapter VI

References.....	65

List of tables

Table 1: Metabolic Syndrome Definitions Comparison...	18
Table 2: Characteristics of demographic factors, MetS, and it's components of the study population.....	46
Table 3: Prevalence of MetS based on demographic factor.....	51
Table 4: Comparison of Demographic Factors towards MetS Components.....	52

List of Figures

Figure 1: Leading causes of global death and premature death in year 2010.....	10
Figure 2: Global disability-adjusted life year ranks, top 25 causes, and percentage change, 1990-2010.....	11
Figure 3: An overview of MetS.....	35
Figure 4: Conceptual framework of study.....	36
Figure 5: Prevalence of Metabolic Syndrome.....	46
Figure 6: Central Obesity.....	47
Figure 7: Hypertension.....	48
Figure 8: Dyslipidemia.....	48
Figure 9: Insulin Resistance.....	49
Figure 10: Pro-inflammatory state.....	49

Abbreviations

AHA	- American Heart Association
BMI	- Body Mass Index
CHD	- Congestive Heart Disease
CRP	- C Reactive Protein
CVD	- Cardiovascular Disease
FFA	- Free Fatty Acids
HDL-C	- High Density Lipoprotein Cholesterol
hsCRP	- High Sensitivity C Reactive Protein
IAS	- International Atherosclerosis Society
IASO	- International Association for the Study of Obesity
IDF	- International Diabetes Federation
IFLS 4	- Indonesia Family Life Survey 4
IL-6	- Interleukin-6
LDL-C	- Low Density Lipoprotein Cholesterol
MetS	- Metabolic Syndrome
NCEP-ATP III	- National Centers of Environmental Prediction-Adult Treatment Panel III
NIH	- National Institutes of Health
OGTT	- Oral Glucose Tolerance Test
RAND	- Research And Development Organization
TG	- Triglyceride
TNF- α	- Tumor Necrosis Factor α
TLR	- Toll-Like Receptors
T2DM	- Type 2 Diabetes Mellitus
WC	- Waist Circumference
WHF	- World Heart Federation
