| ABSTRACT.....                     | XII |
| CHAPTER I.....                    | 1   |
| INTRODUCTION.....                 | 1   |
| 1.1 Background.....               | 1   |
| 1.2 Research Questions.....       | 3   |
| 1.3 Research Objectives.....      | 4   |
| 1.4 Study Benefit.....            | 4   |
| 1.5 Study Originality.....        | 4   |
| CHAPTER II.....                   | 6   |
| LITERATURE REVIEW.....            | 6   |
| 2.1 <i>Aedes albopictus</i> ..... | 6   |

|                            |                                   |    |
|----------------------------|-----------------------------------|----|
| 2.2                        | Dengue.....                       | 11 |
| 2.3                        | <i>Eurycoma longifolia</i> .....  | 14 |
| 2.4                        | Quassinoid.....                   | 15 |
| 2.5                        | Toxicity Test.....                | 16 |
| 2.6                        | Conceptual Framework.....         | 18 |
| 2.7                        | Hypothesis.....                   | 18 |
| CHAPTER III.....           |                                   | 19 |
| RESEARCH METHOD.....       |                                   | 19 |
| 3.1                        | Type and Research Design.....     | 19 |
| 3.2                        | Time and Research Setting.....    | 19 |
| 3.3                        | Research Subject.....             | 19 |
| 3.4                        | Sample Size.....                  | 20 |
| 3.5                        | Materials and Equipments.....     | 20 |
| 3.6                        | Research Variables.....           | 21 |
| 3.7                        | Operational Definition.....       | 21 |
| 3.8                        | Research Procedure.....           | 22 |
| 3.9                        | Data Collection.....              | 26 |
| 3.10                       | Analysis of the Result.....       | 26 |
| 3.11                       | Difficulties and Limitations..... | 27 |
| CHAPTER IV.....            |                                   | 28 |
| RESULT AND DISCUSSION..... |                                   | 28 |

|                 |                 |    |

### LIST OF TABLE

- Table 1. Initial test of *Ae. albopictus* larvae mortality after exposed to the extract of *E. longifolia* bark after 24 hours..... (29)
- Table 2. Final test of *Ae. albopictus* larvae mortality after exposed to the extract of *E. longifolia* bark after 24 hours..... (30)
- Table 3. The  $LC_{50}$  and  $LC_{90}$  of *E. longifolia* bark extract against *Ae. albopictus* larvae mortality from Probits analysis.....(31)

## LIST OF FIGURE

- Figure 1. The morphology of adult *Ae. albopictus*... (8)
- Figure 2. The life cycle of *Aedes* mosquito..... (9)
- Figure 3. The characteristics of the last segment of  
*Ae. albopictus* and *Ae. aegypti* larvae... (10)
- Figure 4. Figure of conceptual framework ..... (18)
- Figure 5. The figure of research variables ..... (21)
- Figure 6. The Probit analysis graph of *Ae. albopictus*  
larvae mortality percentage after 24 hours  
exposure to the extract of *E. longifolia*  
bark..... (31)

#### LIST OF ABBREVIATION

|                       |   |
|-----------------------|---|
| <i>Ae. albopictus</i> | : <i>Aedes albopictus</i>   |
| CDC                   | : Center for Disease Control and<br>Prevention  |
| <i>C. pavonana</i>    | : <i>Crocidolomia pavonana</i>  |
| <i>E. longifolia</i>  | : <i>Eurycoma longifolia</i>  |
| LC <sub>50</sub>      | : Lethal concentration of a substance<br>in water which is needed for 50%<br>mortality in a population exposed to<br>the substance in a certain period. |
| LC <sub>90</sub>      | : Lethal concentration of a substance<br>in water which is needed for 90%<br>mortality in a population exposed to<br>the substance in a certain period. |
| mm                    | : millimeter  |
| ml                    | : milliliter  |
| ppm                   | : part per million  |
| WHO                   | : World Health Organization   |
