INTISARI

Kegiatan praktek kerja lapangan dilaksanakan di PT. Ciomas Adisatwa, Kecamatan Berbah, Sleman, Yogyakarta dilaksanakan pada tanggal 21-26 Maret 2016. Praktek kerja lapangan bertujuan untuk memperoleh data yang diperlukan guna menyusun tugas akhir yang menjadi syarat kelulusan ahli madya kesehatan hewan dan tugas akhir disusun berdasarkan pelaksanaan program sanitasi dan desinfeksi pada ayam periode *starter* di PT. Ciomas Adisatwa. Data diperoleh dari observasi, dokumentasi, wawancara dengan petugas, dan praktek langsung di lapangan. Pelaksanaan program sanitasi di peternakan PT. Ciomas Adisatwa meliputi sanitasi kandang dan lingkungan. Sanitasi kandang yang dilakukan meliputi pembersihan alas kandang dari kotoran atau serangga menggunakan sapu lidi, pembersihan tirai dari debu dan sarang laba-laba, pemberian kapur jika *litter* basah karena tumpahan air minum, pembersihan tempat minum dua kali sehari menggunakan kain basah, dan pemberian air minum berkaporit. Sanitasi lingkungan kandang dilakukan dengan menjaga kebersihan parit dan lingkungan sekitar kandang, dan pencegahan terhadap lalu-lalang orang dan kendaraan yang tidak diizinkan masuk ke *farm*. Desinfeksi di PT. Ciomas Adisatwa meliputi desinfeksi lingkungan, desinfeksi peralatan, desinfeksi air minum, dan desinfeksi lalu-lalang pengunjung. Berdasarkan hasil kegiatan praktek kerja lapangan dapat disimpulkan bahwa program sanitasi dan desinfeksi di PT. Ciomas Adisatwa sudah dijalankan dengan baik karena angka kematian ayam setiap akhir periode sedikit.

Kata Kunci: Sanitasi, desinfeksi, periode *starter*.
