DISCLAIMER	i
ABSTRACT	ii
INTISARI	iii
ACKNOWLEDGEMENTS	iv
TABLE OF CONTENTS	v
LIST OF TABLES	vii
LIST OF FIGURES	viii
LIST OF ABBREVIATIONS	ix
1. INTRODUCTION	1
1.1. Background	1
1.1.1. Javan Leopard (<i>Panthera pardus ssp. melas</i>)	1
1.1.2. Habitat Conservation	3
1.2. Problem Statement	4
1.3. Research Objectives	6
1.4. Research Questions	6
1.5. Research Assumption and Limitation	7
2. LITERATURE REVIEW	8
2.1. Species Distribution Modelling	8
2.2. Volcanic Hazard	9
2.3. Wildfire Hazard	12
2.4. Natural Disaster and Ecosystem	14
2.5. Wildlife and Disaster Management	15
2.6. Habitat Connectivity	16
2.7. Remote Sensing and GIS in Managing Wildlife	18
2.8. Spatial Planning	20
3. RESEARCH METHODOLOGY	22
3.1. Study Area	22
3.2. Methods	24
3.2.1. Maximum Entropy	24
3.2.1.1. Presence Points	25
3.2.1.2. Prey Distribution	26
3.2.1.3. Landcover	26
3.2.1.4. NDVI	27
3.2.1.5. Elevation and Slope	28
3.2.1.6. Distance to Road/Path, Settlement and Water	29
3.2.1.7. Rainfall	29
3.2.1.8. Temperature	30
3.2.1.9. Volcanic Hazard	30
3.2.1.10. Wildfire Hazard	32
3.2.1.11. Preparing Environmental Layers for MaxEnt	32
3.2.1.12. Running the MaxEnt Model	33
3.2.1.13. Model Evaluation	34
3.2.1.14. Optimum Habitat	35
3.2.2. Least Cost Path	35
3.2.2.1. Hindrance Factors	35
3.2.2.2. Scoring variables	36
3.2.3. Gap Analysis	38

3.2.3.1.	Habitat Prediction vs National Park Zoning Systems	38
3.2.3.2.	Predicted Corridor vs Spatial Planning	38
3.3.	Raw Data	39
3.4.	Tools and Software	39
3.5.	Methodological Flowchart	39
4.	RESULTS	41
4.1.	Presence Points of Javan Leopards and Prey	41
4.2.	Landcover Classification and NDVI	43
4.2.	Elevation and Slope	46
4.3.	Distance to Road/Path, Settlements and Water	47
4.4.	Rainfall	48
4.5.	Temperature	50
4.6.	Wildfire Hazard Map	51
4.7.	Multicollinearity Test	52
4.8.	Species Distribution Modelling	53
4.8.1.	Prey Distribution	53
4.8.2.	Javan Leopard Distribution	54
4.8.3.	Model Evaluation	55
4.9.	Optimum Habitat	59
4.10.	Least Cost Path	61
4.11.	Species Distribution Modelling vs National Parks Zoning System	62
4.12.	Least Cost Path vs Regional Spatial Plan	64
5.	DISCUSSION	66
5.1.	Habitat Prediction for Javan Leopard	66
5.2.	Possible Corridors	68
5.3.	Gap Analysis	71
5.3.1.	Conformity of National Park Zoning System	71
5.3.2.	Regional Spatial Plan Review	73
5.4.	Disaster Risk Management for Javan Leopard Conservation	75
6.	CONCLUSIONS AND RECOMMENDATIONS	77
6.1.	Conclusions	77
6.2.	Recommendations	79
	REFERENCES	80
	ANNEXES	85
