

## TABLE OF CONTENT

ACKNOWLEDGEMENT .....	iv
TABLE OF CONTENT .....	v
LIST OF FIGURES .....	vii
LIST OF TABLES .....	x
INTISARI .....	xi
ABSTRACT .....	xii
CHAPTER 1: INTRODUCTION .....	1
1.1 General background .....	1
1.2 Problem Statement .....	3
1.3 Objectives and scope of works .....	6
CHAPTER 2: LITERATURE REVIEW .....	8
2.1 Tsunami source: definition & quantification .....	8
2.2 Tsunamigenic earthquakes: along the subduction zones and local tsunami .....	18
2.3 Tsunami run-up and inundation .....	30
2.4 Numerical models .....	32
CHAPTER 3: THEORETICAL BASE .....	45
3.1 Shallow water theory .....	45
3.2 Bottom friction .....	47
3.3 Governing equation .....	49
3.4 Numerical scheme .....	49
3.5 Further development .....	50
3.5.1 Governing equations .....	51
3.5.2 Initial and boundary conditions .....	52
3.6 Hypotheses .....	53
3.6.1 Parameters influencing tsunami run-up height .....	53
CHAPTER 4: METHODOLOGY .....	56
4.1 Research methodology .....	56
4.1.1 Definition and type of methodology .....	56
4.1.2 Research process .....	58
4.2 Data acquisition .....	59

4.2.1. Geo-data.....	60
4.2.2 Field observation data.....	63
4.3 Data processing.....	65
4.3.1 Pre-processing.....	66
4.3.1.a Geo-data.....	66
4.3.1.b Field observation data.....	68
4.3.2 Data post-processing.....	68
4.4 Simulation model.....	69
4.4.1 Model tools.....	70
4.4.1.a Fault model.....	70
4.4.1.b Deformation model.....	70
4.4.1.c Tsunami model.....	70
4.4.2 Model set up.....	71
4.4.2.a Sources model.....	71
4.4.2.a.1 Hypothetic model for historical study.....	71
4.4.2.a.2 Multi fault hypothetic model for future tsunami hazard.....	71
4.4.2.b Domains and model parameters.....	73
CHAPTER 5: FINDINGS.....	76
5.1 Data assimilation.....	76
5.2 Simulation results.....	78
5.2.1 Hypothetical model for historical study.....	78
5.2.1.a Tsunami arrival time and maximum inundation.....	79
5.2.2 Hypothetical model for future hazard.....	84
5.2.2.a Tsunami inundation and distribution.....	84
5.2.2.b Relationship between wave height at dislocation and tsunami run-up.....	86
CHAPTER 6: CONCLUSIONS AND RECOMMENDATIONS.....	88
6.1. Conclusion of the research.....	88
6.2. Recommendation for future works.....	88
REFERENCES.....	90
APPENDIX A – FIELD MEASUREMENT DATA.....	93
APPENDIX B – FIELD SURVEY.....	110
