

## DAFTAR ISI

|                                              |      |
|----------------------------------------------|------|
| PERNYATAAN BEBAS PLAGIARISME .....           | i    |
| HALAMAN PENGESAHAN.....                      | ii   |
| HALAMAN TUGAS .....                          | iii  |
| KATA PENGANTAR .....                         | vi   |
| DAFTAR ISI.....                              | viii |
| DAFTAR GAMBAR .....                          | xi   |
| DAFTAR TABEL .....                           | xiii |
| DAFTAR SINGKATAN .....                       | xiv  |
| INTISARI.....                                | xv   |
| ABSTRACT.....                                | xvi  |
| BAB I .....                                  | 1    |
| I.1. Latar Belakang .....                    | 1    |
| I.2. Perumusan Masalah.....                  | 2    |
| I.3. Tujuan.....                             | 3    |
| I.4. Manfaat.....                            | 3    |
| BAB II.....                                  | 4    |
| BAB III .....                                | 7    |
| III.1. Proses Pembentukan Amonia .....       | 7    |
| III.2. Katup Kontrol .....                   | 9    |
| III.3. Permasalahan pada Katup Kontrol ..... | 10   |
| III.3.1. Histeresis .....                    | 10   |
| III.3.2. <i>Deadband</i> .....               | 11   |
| III.3.3. Saturasi .....                      | 11   |
| III.3.4. <i>Stiction</i> .....               | 11   |

|           |                                                                  |    |
|-----------|------------------------------------------------------------------|----|
| III.3.4.1 | Pemodelan <i>Stiction</i> menurut He .....                       | 13 |
| III.3.4.2 | Pemodelan <i>Stiction</i> menurut Choudhury .....                | 14 |
| III.4     | Pengolahan Data .....                                            | 16 |
| III.4.1   | Metode <i>Bicoherence</i> untuk Mendeteksi Ketidaklinieran ..... | 16 |
| III.4.2   | Metode Pencocokan Grafis untuk Mendeteksi <i>Stiction</i> .....  | 17 |
| III.4.2.1 | Metode Pencocokan Kurva.....                                     | 18 |
| III.4.2.2 | Metode Pencocokan Elips .....                                    | 20 |
| BAB IV    | .....                                                            | 23 |
| IV.1.     | Bahan dan Alat Penelitian .....                                  | 23 |
| IV.2.     | Tata Laksana Penelitian.....                                     | 23 |
| IV.2.1.   | Studi literatur .....                                            | 23 |
| IV.2.2.   | Pengambilan Data.....                                            | 24 |
| IV.2.3.   | Pembuatan Program Deteksi <i>Stiction</i> .....                  | 25 |
| IV.2.4.   | Validasi Program Deteksi <i>Stiction</i> .....                   | 25 |
| IV.2.5.   | Implementasi Program Deteksi <i>Stiction</i> .....               | 25 |
| BAB V     | .....                                                            | 26 |
| V.1.      | Pembuatan Program Deteksi <i>Stiction</i> .....                  | 26 |
| V.1.1.    | Fungsi <i>Bicoherence</i> .....                                  | 28 |
| V.1.2.    | Fungsi Pencocokan Kurva .....                                    | 30 |
| V.1.3.    | Fungsi Pencocokan Elips .....                                    | 32 |
| V.2.      | Validasi Program .....                                           | 34 |
| V.2.1.    | Validasi Fungsi <i>Bicoherence</i> .....                         | 34 |
| V.2.2.    | Validasi Fungsi Pencocokan Grafis.....                           | 36 |
| V.3.      | Implementasi Data Industri.....                                  | 41 |
| V.4.      | Pembahasan Hasil .....                                           | 43 |
| V.4.1.    | <i>Span</i> OP terlalu tinggi.....                               | 43 |
| V.4.2.    | <i>Gaussian</i> .....                                            | 45 |
| V.4.3.    | <i>Stiction</i> .....                                            | 46 |
| V.4.4.    | Tidak <i>Stiction</i> .....                                      | 50 |

|                       |    |
