| HALAMAN MOTTO .....                                      | vi   |
| KATA PENGANTAR .....                                     | vii  |
| DAFTAR ISI.....  | ix   |
| DAFTAR GAMBAR .....                                      | xi   |
| DAFTAR TABEL.....  | xiii |
| INTISARI .....   | xiv  |
| ABSTRACT.....  | xv   |
| BAB I PENDAHULUAN.....                                   | 1    |
| 1.1 Latar Belakang .....                                 | 1    |
| 1.2 Rumusan Masalah .....                                | 4    |
| 1.3 Batasan Masalah.....                                 | 4    |
| 1.4 Tujuan Penelitian .....                              | 4    |
| 1.5 Manfaat Penelitian .....                             | 5    |
| 1.6 Keaslian Penelitian.....                             | 5    |
| 1.7 Metode Penelitian.....                               | 5    |
| 1.8 Sistematika Penulisan.....                           | 6    |
| BAB II TINJAUAN PUSTAKA .....                            | 8    |
| BAB III LANDASAN TEORI.....                              | 16   |
| 3.1 Text Mining.....                                     | 16   |
| 3.1.1 Text Preprocessing .....                           | 18   |
| 3.1.2 Feature Extraction .....                           | 20   |
| 3.2 Sentimen Analysis.....                               | 22   |
| 3.2.1 Coarse-Grained Sentimen Analysis .....             | 22   |
| 3.2.2 Fined-Grained Sentimen Analysis .....              | 22   |
| 3.3 Sentimen Analysis Dengan Klasifikasi Adjective ..... | 23   |
| 3.4 Muti Layer Perceptron .....                          | 23   |
| 3.5 Fungsi Aktivasi .....                                | 26   |
| 3.5.1 Fungsi Threshold dan Sigmoid .....                 | 26   |
| 3.5.2 Fungsi Softmax .....                               | 27   |
| 3.5.3 Backpropagation .....                              | 28   |
| 3.6 Resilient Backpropagation .....                      | 33   |
| 3.7 Restricted Boltzmann Machines .....                  | 40   |
| 3.8 Deep Architectures.....                              | 42   |
| 3.9 Deep Belief Network.....                             | 43   |
| 3.10 Training RBM .....                                  | 47   |
| 3.14 Fine Tunning DBN dengan Backpropagation.....        | 51   |
| 3.15 Pengujian Klasifikasi tweet.....                    | 52   |
| BAB IV ANALISIS DAN PERANCANGAN .....                    | 54   |
| 4.1 Analisis Kebutuhan .....                             | 54   |
| 4.2 Spesifikasi Fungsional .....                         | 56   |
| 4.3 Spesifikasi Data.....                                | 56   |
| 4.3.1 Data Input.....                                    | 56   |
| 4.3.2 Data Output .....                                  | 58   |

|   |            |
|---|------------|
| 4.3.3 Jumlah Data yang Digunakan .....                                | 58         |
| 4.4 Arsitektur Sistem.....  | 58         |
| 4.5 Pengumpulan Data .....  | 60         |
| 4.6 Preprocessings.....   | 62         |
| 4.7 Bag-of-word .....   | 64         |
| 4.8 Pemodelan data .....  | 66         |
| 4.9 Analisis penerapan algoritma Deeb Belief Network .....            | 67         |
| 4.9.1 Data Input.....   | 68         |
| 4.9.2 Ilustrasi DBN .....   | 68         |
| 4.9.3 Inisialisasi RBM dan Konstruksi DBN .....                       | 71         |
| 4.9.4 Pelatihan Setiap Lapis RBM .....                                | 71         |
| 4.9.4 Fine-tuning Backpropagation.....                                | 74         |
| 4.9.5 Output Layer .....  | 74         |
| 4.10 Eksperimen dan Pengujian .....                                   | 74         |
| 4.11 Perancangan Antarmuka .....                                      | 76         |
| <b>BAB V IMPLEMENTASI.....</b>  | <b>79</b>  |
| 5.1 Deskripsi Implementasi .....                                      | 79         |
| 5.2 Implementasi Pengambilan data dari Twitter .....                  | 79         |
| 5.3 Implementasi Proses Cleanning Text.....                           | 81         |
| 5.4 Implementasi Bag-of-word .....                                    | 85         |
| 5.5 Implementasi Training data dengan DBN (Deep Belief Network) ..... | 87         |
| 5.6 Implementasi Pengujian Akurasi .....                              | 90         |
| <b>BAB VI HASIL DAN PEMBAHASAN .....</b>                              | <b>94</b>  |
| 6.1 Tampilan Antarmuka Sistem.....                                    | 94         |
| 6.2 Analisa Pengaruh Jumlah Data Masukan.....                         | 95         |
| 6.3 Analisa Pengaruh Lapisan Hidden Layer pada Waktu .....            | 100        |
| 6.4 Analisa Pengaruh Learning Rate terhadap Akurasi .....             | 103        |
| 6.5 Analisa Perbandingan Nilai Akurasi Terhadap Metode.....           | 108        |
| 6.6 Hasil Pengujian .....   | 110        |
| <b>BABVII PENUTUP.....</b>  | <b>111</b> |
| 7.1 Kesimpulan .....  | 111        |
| 7.2 Saran.....  | 112        |
