LIST OF APPENDIXES.....	xv
ABSTRACT.....	xvi
<i>INTISARI</i>	xvii
I. INTRODUCTION.....	1
A. Background of Problem.....	1
B. Formulation of Problem.....	4
C. Research Authenticity.....	4
D. Research Objectives.....	6
E. Research Benefits.....	6
II. LITERATURE REVIEW.....	7
A. Literature Background.....	7
1. Motivation.....	7
2. Factors Affecting Motives Behind Career Choice.....	14
3. Dentistry As A Career.....	18
4. Faculty of Dentistry Gadjah Mada University.....	20
5. First-Year Dental Students.....	21
B. Literature Overview.....	22
C. Theoretical Framework.....	24
D. Conceptual Framework.....	24
E. Hypothesis.....	25
III. METHODOLOGY.....	26
A. Type of Research.....	26

Contents	Page
B. Identification of Variables.....	26
C. Operational Definition.....	26
D. Research Subjects.....	29
E. Research Instrument.....	29
F. Procedure.....	31
G. Data Analysis.....	33
H. Research Steps.....	34
IV. RESULTS AND DISCUSSION.....	35
A. Results.....	35
B. Discussion.....	51
V. CONCLUSION AND SUGGESTION.....	58
A. Conclusion.....	58
B. Suggestion.....	59
BIBLIOGRAPHY.....	60
APPENDIX.....	66

LIST OF TABLES

Tables	Page
1. Uang Kuliah Tunggal (UKT) tuition fee payment system.....	28
2. Items questioning students' motives for choosing a career in Dentistry.....	30
3. Sociodemographic profile of the first-year dental students studying in the Faculty of Dentistry, Gadjah Mada University in the academic year of 2016 (N = 201).....	36
4. Three main motives influencing dental students' choice of dentistry as a career based on its total rating score, mean (μ) and standard deviation (σ)	37
5. The total score, mean (μ) and standard deviation (σ) of the three least chosen motives influencing dental students' choice of dentistry as a career.....	38
6. Difference in motives between female and male students by means of mean (μ), standar deviation (σ), t -value and value of significance (p).....	39
7. Difference in motives between public high school graduates and private high school graduates with regards to mean (μ), standar deviation (σ), t -value and significance value (p).....	40
8. Difference in motives between urban origin students and rural origin students with respect to mean (μ), standar deviation (σ), t -value and significance value (p).....	40
9. Difference in motives with respect to students' parent's academic qualification by means of mean (μ), standar deviation (σ), t -value and value of significance (p).....	41
10. Difference in motives with respect to students' parents' occupation by means of mean (μ), standar deviation (σ), t -value and value of significance (p).....	42
11. Difference in motives with respect to students' family income occupation by means of mean (μ), standar deviation (σ), t -value and value of significance (p).....	43
12. Difference in the three main motives for choosing dentistry as a career between male and female dental students.....	43
13. Difference in the three main motives for choosing dentistry as a career between dental students who are public high school graduates and private high school graduates.....	45

Tables	Page
14. Difference in the three main motives for choosing dentistry as a career between dental students from rural and urban origin.....	46
15. Difference in the three main motives for choosing dentistry as a career between dental students with mothers who are bachelor degree graduates and dental students with mothers who are high school graduates.....	47
16. Difference in the three main motives for choosing dentistry as a career between dental students with fathers who are bachelor degree graduates and dental students with fathers who are high school graduates.....	48
17. Difference in the three main motives for choosing dentistry as a career between dental students with mothers working in the health science sector and students with mothers working in the non-health science sector.....	49
18. Difference in the three main motives for choosing dentistry as a career between dental students with fathers working in the health science sector and students with fathers working in the non-health science sector.....	50
19. Difference in the three main motives for choosing dentistry as a career between dental students with a high socioeconomic status and low socioeconomic status.....	51
20. Data on Students' Demographic Distribution.....	76
21. Frequency Distribution of Students' Sociodemographic Factors.....	81
22. Likert Scale Data on Motivation for Choosing Dentistry as a Career.....	82
23. Motives for choosing dentistry in regards to mean, standard deviation and percentage of response rate at each.....	92
24. Difference in choosing dentistry as a career in regards to the students' sociodemographic background.....	97
25. Difference in the three main motives choosing dentistry as a career in regards to the students' sociodemographic background.....	102

1. Theoretical Framework.....	24
2. Conceptual Framework	24
3. Research Steps.....	34

LIST OF APPENDIXES

Appendix	Page
Appendix.....	66
1. Ethical Clearance.....	67
2. Research Permit Letter.....	68
3. Introduction to the Questionnaire (Translated into Indonesian Language).....	69
4. Informed Consent (Translated into Indonesian Language: Surat Pemberitahuan Persetujuan).....	70
5. First section of Questionnaire: Demographic Data (Translated into Indonesian Language).....	71
6. Second section of Questionnaire: Motivations for Choosing Dentistry as a Career (Translated into Indonesian Language).....	72
7. Validity and Reliability Test on Items in the Second- Part of the Questionnaire	75
8. Data on Students' Demographic Distribution.....	76
9. Likert Scale Data on Motivations for Choosing Dentistry as a Career.....	82
10. Difference in motives for choosing dentistry as a career with regards to the students' sociodemographic factors.....	93
11. Difference in the three main motives for choosing dentistry as a career with regards to the students' sociodemographic factors.....	98
