

TABLE OF CONTENTS

COVER.....	i
ENDORSEMENT PAGE.....	ii
PERNYATAAN KEASLIAN PENELITIAN.....	iii
FOREWORD.....	iv
TABLE OF CONTENTS.....	viii
LIST OF TABLES.....	xi
LIST OF FIGURES.....	xii
LIST OF APPENDIXES.....	xiii
ABSTRACT.....	xiv
INTISARI.....	xv
CHAPTER I INTRODUCTION.....	1
1.1 Background.....	1
1.2 Objectives.....	4
CHAPTER II LITERATURE REVIEW.....	5
2.1 Mangosteen peel.....	5
2.2 Lignocellulose material.....	6
2.2.1 Cellulose.....	7
2.2.2 Hemicellulose.....	7
2.2.3 Lignin.....	8
2.3 Sodium hydroxide pretreatment.....	9
2.6 Anaerobic digestion.....	13
2.6.1 Hydrolysis.....	14
2.6.2 Acidogenesis.....	15
2.6.3 Acetogenesis.....	15

2.6.4 Methanogenesis.....	15
---------------------------	----

CHAPTER III MATERIALS & METHODS

3.1 Materials.....	17
3.1.1 Mangosteen.....	17
3.1.2 Inoculum.....	17
3.1.3 Chemicals.....	17
3.1.3.1 Pretreatment.....	17
3.1.3.2 Cellulose and hemicellulose analysis.....	18
3.1.3.3 Lignin analysis.....	18
3.1.3.4 Anaerobic digestion process.....	18
3.2 Equipments.....	18
3.2.1 Pretreatment.....	18
3.2.2 Determination of mangosteen peel characteristic.....	19
3.2.3 Anaerobic digestion.....	20
3.3 Methods.....	20
3.3.1 High temperature sodium hydroxide pretreatment.....	20
3.3.2 Anaerobic digestion procedure.....	22
3.3.3 Analytical methods.....	23
3.3.3.1 Biogas sampling.....	23
3.3.3.2 Biogas analysis.....	24
3.3.3.3 Characterization of untreated and pretreated mangosteen peel.....	24
3.3.3.3.1 TS and VS Analysis.....	24
3.3.3.3.2 Cellulose and hemicellulose analysis.....	25
3.3.3.3.3 Lignin analysis.....	26

3.3.3.3.4 Fats content.....	27
3.3.3.3.5 Total nitrogen content.....	27
3.3.3.3.6 Total sugars and soluble starch content...	28
3.3.3.3.7 Total phenolic compound analysis.....	28
3.3.3.3.8 FTIR analysis.....	29
3.3.4 Data analysis.....	29
3.4 Laboratory.....	29
CHAPTER IV RESULTS AND DISCUSSION.....	31
4.1 Effects of pretreatment on the composition of mangosteen peel.....	31
4.2 Effects of pretreatment on structural changes of mangosteen peel.....	35
4.3 Effects of pretreatment on reduction of Total Phenolic Compound....	39
4.4 Biogas production.....	40
CHAPTER V CONCLUSION AND FUTURE WORK.....	46
REFERENCES.....	49
APPENDIXES.....	55
