

## DAFTAR PUSTAKA

- AASHTO LRFD Bridge Design Specifications*. 2012. Customary U.S. Units
- BSN. 2005. SNI T 02-2005 *Perencanaan Pembebanan Jembatan*. Jakarta: Badan Standardisasi Nasional.
- BSN. 2005. SNI T 03-2005 *Perencanaan Struktur Baja untuk Jembatan*. Jakarta: Badan Standardisasi Nasional.
- Design Manual for Orthotropic Steel Plate Deck Bridge*. 1963. American Institute of Steel Construction, Inc.
- Dosen-dosen Jurusan Teknik Sipil dan Lingkungan. 2013. *Pedoman Penulisan Tugas Akhir dan Tesis*. Yogyakarta: Jurusan Teknik Sipil dan Lingkungan
- DPU. 2011. *Pedoman Penentuan Nilai Sisa Kapasitas Jembatan*. Direktorat Jenderal Bina Marga.
- DPU.2009. *Pedoman Pemeriksaan Jembatan Rangka Baja*. Direktorat Jenderal Bina Marga.
- Feng, X. 1996. *3D Finite Element Analysis of An Orthotropic Deck System*. Lehigh University: Civil Engineering.
- Kato,. 2013. *Local Stress Behavior At Closed Rib To Crossbeam Connections In Orthotropic Steel Bridge Deck*. Japan: Department of Civil Engineering, Nagoya University.
- Liao, J. 2011. *Fatigue Damage in the Orthotropic Steel Deck with Respect to the Trough-to-Deck Plate Joint in Between the Crossbeams*. Delft University of Technology: Faculty of Civil Engineering and Geosciences.
- Lugger, P.G. 1995. *Closed Rib Steel Orthotropic Bridge Decks- A Laboratory Study*. Lehigh University: Civil Engineering
- Manual for Design, Construction, and Maintenance of Orthotropic Steel Deck Bridge*. 2012. United State: Department of Transportation Federal Highway Administration.

Setiawan, A. 2008. *Perencanaan Struktur Baja dengan Metode LRFD*. Jakarta: Penerbit Erlangga.

Sugioka, K. 2009. *Life Cycle Evaluation of Fatigue Mitigation for Orthotropic Steel Bridge Decks*. New Zealand: University of Canterbury.

Yarnold, M. 2005. *Trapezoidal Rib Orthotropic Bridge Deck Parametric Analysis*. Lehigh University: Civil Engineering.
