ACKNOWLEDGEMENT	iv
TABLE OF CONTENT	v
LIST OF TABLES	viii
LIST OF FIGURES	xi
ABSTRACT	xiv
CHAPTER 1 INTRODUCTION	1
1.1 Background	1
1.2 Purposes.....	2
1.3 Case Limitations	2
1.4 Benefit	3
1.5 Originality	3
CHAPTER 2 LITERATURE REVIEW	5
2.1 Slope Stability Analysis	5
2.1.1 Finite element method.....	5
2.1.2 Plaxis Version 8 geotechnical software	6
2.1.3 Slope/W GeoStudio 2004.....	7
2.1.4 Slope stability in western area of Ratu Boko Sites	7

2.2	Typical values for rock properties	8
CHAPTER 3 THEORITICAL FRAMEWORK		11
3.1	Rock-Mass Strength	11
3.1.1	Hoek and Brown failure criterion (2002 edition).....	11
3.1.2	Mohr-Coulomb criterion	15
3.2	Bearing Capacity of Foundation.....	17
3.2.1	Theory of bearing capacity of rock	17
3.2.2	Bearing capacity of foundation near the edge of slope	22
3.3	Slope Failure Phenomenon.....	28
3.3.1	Slope failure definition.....	28
3.3.2	Mechanical factors and incitant factors of slope failure	28
3.3.3	Mechanism of occurrence of slope failure	29
3.3.4	Development hazard maps for sediment related disaster in Japan..	30
CHAPTER 4 RESEARCH METHODS		38
4.1	Object of Study.....	38
4.2	Research Instrument for Data Collection	38
4.3	Research Process Steps	39
4.3.1	Literature study	42
4.3.2	Preliminary site investigation.....	43
4.3.3	Selection of survey areas.....	43
4.3.4	Survey for the determination of slope failure hazard areas.....	44
4.3.5	Determination of slope failure hazard areas.....	46
4.3.6	Social survey in slope failure hazard areas	46
4.3.7	Data analysis and numerical modelling	47

4.3.8	Validation.....	47
4.3.9	Evaluating infrastructure development plan	47
CHAPTER 5 RESULT AND DISCUSSION		49
5.1	Assessment of Slope Failure Potency	49
5.1.1	Determination of survey areas	49
5.1.2	Survey for determination of slope failure hazard area	49
5.1.3	Determination of slope failure hazard area	52
5.1.4	Slope failure potential hazard map.....	56
5.2	Evaluating the Bearing Capacity of Foundation	66
5.2.1	Design and analysis of upper structure	66
5.2.2	Design and analysis of foundation	78
5.3	Recommendations of Area Development Plan.....	86
5.3.1	Reforming the inclination of slope.....	87
5.3.2	Restructuring the slope with benches.....	89
5.3.3	Reinforcing the slope with soil nailing	91
CHAPTER 6 CONCLUSION.....		94
6.1	Conclusion.....	94
6.2	Suggestion	94
