

TABLE OF CONTENTS

Title Page.....	i
Approval Page.....	ii
Declaration.....	iii
Acknowledgement.....	iv
Table of Contents.....	vi
List of Tables.....	x
List of Figures.....	xii
List of Appendices.....	xiii
Abstract.....	xiv
CHAPTER I. INTRODUCTION.....	1
1.1 Background.....	1
1.2 Problem Formulation.....	6
1.3 Research Objectives.....	7
1.4 Expected Benefits.....	7
1.5 Thesis Systematic.....	8
CHAPTER II. LITERATURE REVIEW.....	10
2.1 Previous Researches.....	10
2.2 Theoretical Background.....	16
2.2.1 Risk.....	16

2.2.2 Sources of Risk.....	16
2.2.2.1 Interest Rate Risk.....	17
2.2.2.2 Market Risk.....	17
2.2.2.3 Inflation Risk.....	17
2.2.2.4 Business Risk.....	18
2.2.2.5 Financial Risk.....	18
2.2.2.6 Liquidity Risk.....	18
2.2.2.7 Exchange Rate Risk.....	18
2.2.2.8 Country Risk.....	18
2.2.3 Types of Risk.....	19
2.2.3.1 Systematic Risk versus Non-Systematic Risk.....	19
2.2.4 The Concept of Beta.....	20
2.2.5 Single Index Model.....	22
2.2.6 Fundamental Variables of Firm.....	23
2.2.6.1 Liquidity Ratios....	23
2.2.6.2 Leverage Ratios.....	23
2.2.6.3 Profitability Ratios.....	24
2.2.6.4 Capital Market Ratios.....	24
2.2.6.5 Firm Size.....	24
2.2.7 Macroeconomic Variables.....	25
2.2.7.1 Inflation Rate.....	25

2.2.7.2 Interest Rate.....	25
2.2.7.3 Foreign Exchange Rate.....	26
2.2.7.4 Gross Domestic Product.....	26
CHAPTER III. RESEARCH METHODOLOGY.....	27
3.1 The Data and Samples.....	27
3.2 Variables.....	31
3.2.1 Selected Economic Variables.....	31
3.2.2 Financial ratio Variables.....	31
3.3 Data Analysis.....	34
3.4 Classical Assumption Analysis.....	38
3.4.1 There is no perfect multicollinearity.....	38
3.4.2 No autocorrelation between the disturbances.....	39
CHAPTER IV. RESEARCH FINDINGS AND ANALYSIS.....	42
4.1 Determination of Beta Values.....	42
4.2 Test Result of Multiple Regression of Financial Ratios....	43
4.2.1 Detecting Multicollinearity.....	44
4.2.2 Detecting Autocorrelation.....	45
4.2.3 Testing the Hypotheses about an Individual Partial Regression Coefficient (t-test) and the overall significance of the sample regression (F-test).....	46

4.3 Test Result of Multiple Regression on Selected Economic Variables.....	49
4.3.1 Detecting Multicollinearity.....	49
4.3.2 Detecting Autocorrelation.....	52
4.3.3 Testing the Hypotheses about an Individual Partial Regression Coefficient (t-test) and the overall significance of the sample regression (F-test).....	53
4.4 Test Result of Multiple Regression on Financial Ratios as for “Small” and “Large” Firms.....	58
4.5 Test Result of Multiple Regression on Economic Variable for “Small” and “Large” Firms.....	60
4.6 Test Result of Beta Mean Differences Between Small and Large Firms.....	61
CHAPTER V. CONCLUSIONS AND RECOMMENDATIONS.....	64
5.1 Conclusions.....	64
5.2 Limitation of the Study.....	67
5.3 Recommendations.....	67

APPENDICES	

LIST OF TABLES

Table 3.1	The Firms that Listed in JSX from 1997-2001.....	28
Table 3.2	The Sample of Firms That Have Beta Significant Different From Zero.....	29
Table 3.3	The Sample of Large Firms.....	30
Table 3.4	The Sample of Small Firms.....	30
Table 3.5	Financial Ratios Included in the Tests.....	33
Table 3.6	Durbin-Watson d test: Decision rules.....	41
Table 4.1	The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables.....	44
Table 4.2	Correlation among Regressors.....	44
Table 4.3	Variance Inflation Factor	45
Table 4.4	The Result of Multiple Regression with Beta as Dependent Variable and Economic Variables as Independent Variables.....	49
Table 4.5	Correlation among Regressors.....	50
Table 4.6	Variance Inflation Factor.....	50
Table 4.7	The Result of Multiple Regression with Beta as Dependent Variable and Economic Variables as Independent Variables After Dropping Inflation Rate.....	51
Table 4.8	Correlation among Regressors.....	51
Table 4.9	Variance Inflation Factor.....	52

Table 4.10	The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables for “Small” Firms.....	58
Table 4.11	The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables for “Large” Firms.....	59
Table 4.12	The Result of Multiple Regression with Beta as Dependent Variable and Economic Variables as Independent Variables after Dropping Inflation Rate for Small Firms.....	60
Table 4.13	The Result of Multiple Regression with Beta as Dependent Variable and Economic Variables as Independent Variables after Dropping Inflation Rate for Large Firms.....	61
Table 4.14	The Beta Mean Differences Between Large and Small Firms.....	62

LIST OF FIGURES

Figure 2.1	Systematic and Nonsystematic Risk.....	20
Figure 2.3	Illustrative Betas of 1.5 (A), 1.0 (B), and 0.6 (C).....	21
Figure 4.1	Durbin-Watson d statistic for Fundamental Variables.....	46
Figure 4.2	Durbin-Watson d statistic for Economic Variables.....	53

LIST OF APPENDICES

- Appendix 1. Beta of Firms for 1997 to 2001
- Appendix 2. Corrected Beta Value Using Fowler-Rorke Method of Firms for 1997 to 2001
- Appendix 3. Current Ratio of Firms
- Appendix 4. Debt Ratio of Firms
- Appendix 5. Earning per Share of Firms
- Appendix 6. Return on Equity of Firms
- Appendix 7. Logarithm of Total Assets of Firms
- Appendix 8. The Variables Data in Regression Beta on Financial Ratio
- Appendix 9. The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios (Current Ratio, Debt Ratio, Earning per Share, Return on Equity, and Total Assets) as Independent Variables
- Appendix 10. The Selected Economic Variables Data (Gross Domestic Product, Inflation Rate, Interest Rate, and Exchange Rate)
- Appendix 11. The Variables Data in Regression Beta on Selected Economic Variables
- Appendix 12. The Result of Multiple Regression with Beta as Dependent Variable and Selected Economic Variables (Gross Domestic Product, Inflation Rate, Interest rate, and Exchange Rate) as Independent Variables
- Appendix 13. The Variables Data in Regression Beta on Selected Economic

Variables after Dropping Inflation Rate

- Appendix 14. The Result of Multiple Regression with Beta as Dependent Variable and Selected Economic Variables as Independent Variables after Dropping Inflation Rate
- Appendix 15. The Variables Data in Regression Beta on Financial Ratios for Small Firms
- Appendix 16. The Variables Data in Regression Beta on Financial Ratios for Large Firms
- Appendix 17. The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables for “Small” Firms
- Appendix 18. The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables for “Large” Firms
- Appendix 19. The Variables Data in Regression Beta on Selected Economic Variables for “Small” Firms
- Appendix 20. The Variables Data in Regression Beta on Selected Economic Variables for “Large” Firms
- Appendix 21. The Result of Multiple Regression with Beta as Dependent Variable and Economic Variables as Independent Variables for “Small” Firms
- Appendix 22. The Result of Multiple Regression with Beta as Dependent Variable and Financial Ratios as Independent Variables for “Large” Firms
- Appendix 23. Beta of Small and Large Firms for 1997 until 2001
